## **Prerequisites**

GEOG 4560/5560: Introduction to GIS Programming (or consent of department)

## **Objectives**

This course includes lectures, demos, hands-on exercises, homework assignments, and a programming project. It is for those who work with ESRI's ArcGIS on a technical level and have knowledge in programming with Visual C#. Based on the knowledge of Visual C#, students will learn about ArcGIS customization using ArcObjects and add-ins. Methods and examples of accessing maps and layers will be introduced, followed by spatial and attribute queries. It is expected that students will learn how to build and deploy add-ins for ArcGIS Desktop after completion of this course. Graduate students are also required to learn how to develop applications for tracking moving objects.

## **Software**

ArcGIS Desktop (ArcInfo 10) and Microsoft Visual Studio 2010.

## **Project**

Two individual programming projects will be distributed in class, one for undergraduate students, and the other for graduate students.

## In-Class Exercises and Homework

In-class exercises should be saved in your folder at R:\CSAM\class\4570\AdvGISProg\StudentFolders\. The instructor will check your in-class exercises every Wednesday. If you miss a class, you should contact the instructor and finish the in-class exercises by the following Wednesday. Class attendance and in-class exercises count 10% of the final grade.

Five individual homework assignments (12% each) will be turned in and marked. Late homework will be marked down 10% for every day late. Homework files should be saved in your folder at R:\CSAM\class\4570\AdvGISProg\StudentFolders\.

### **Student Evaluation of Teaching Effectiveness (SETE)**

The Student Evaluation of Teaching Effectiveness (SETE) is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. I am very interested in the feedback I get from students, as I work to continually improve my teaching. I consider the SETE to be an important part of your participation in this class. At the end of the semester, please visit <https://sete.unt.edu> and login using your EUID and password to complete the short survey.
