

Fall 2026 - Syllabus

EENG 3411 - Engineering Electromagnetics Lab

Class meetings B288, Monday 6:30 pm – 9:20 pm

Description

Electromagnetic Labs primarily revolves around practical lab experiments designed to reinforce theoretical concepts in electromagnetism. The course emphasizes hands-on activities, with students engaging in a variety of experiments to explore electromagnetic phenomena. Assessment is predominantly based on lab reports and performance during lab sessions, more focus on demonstrating practical understanding through projects and presentations. Credit hours: 1 hr.

Prerequisite(s): EENG 2610, MATH 3310.
