

ADVG 4800: Advertising Internship

COURSE DESCRIPTION

Through this graduation requirement you will have the opportunity to work in a real-world environment and learn through hands-on challenges. Put to use all the skills you've learned in your classes. You may find it helpful to create a list of goals or questions you have while working in your internship position. Take great notes, learn everything you can!

While you have a mentor/advisor at your internship, I will serve as your mentor/advisor with UNT. Should you have any questions or need advice at any point, please reach out. Throughout the summer I will touch base with you via Canvas to hear how you're enjoying the experience and what you're learning. Have fun!
