Assignment Submission Instructions
You can access assignments by clicking on the assignment links in the course modules. Unless otherwise indicated, assignments must be submitted in Microsoft Word format and include APA 6 style citations and references. It is very important that you familiarize yourself with APA style formatting, as points will be deducted from assignments as well as discussion posts that require the use of citations for supporting your own statements.

Late Work
Late work will only be accepted for a justifiable reason (such as a serious illness, death, or military service). Documentation must be provided and a request must be made to submit the late work. The documentation will be reviewed by the instructor. Late work will not be accepted during the last module.

Participation / Discussions
You can access the discussions by clicking on the “Discussions” links in the course content area. Participation means that you complete the required discussion postings for a module by the due date listed. You may not begin the discussions early. You must also meet the requirements for the post to earn full credit. Each discussion is 2-part, requiring 1 original post at least one thoughtful reply to other classmates’ original posts, therefore the original post will always be due on Friday, and the replies will always be due on Monday, allowing everyone adequate time to read and respond.
