EENG 3920  Modern Communication System Design Project

Instructor:  Shuping Wang  Spring 2024
Office:  NTDP F130  Time: (We) 1:00 pm – 3:50 pm
Phone:  940-369-8895  Meeting Place: NTDP B288
Email:  shuping@unt.edu  Office Hours: (TuTh) 2:00 pm – 4:00 pm

TA: Yun Kong/Mitul Mahendrabhai Parmar
Email: YunKong@my.unt.edu/MitulMahendrabhaiParmar@my.unt.edu
Office Hours: Thursday, 10:00am – 11:00am, Room B239

Course Description
Students are required to design electronic communication systems with electronic devices such as transistors, capacitors, inductors, and resistors. Topics include LC circuits and oscillators, AM modulation, SSB communications, and FM modulation.

Course Information
Co-requisite
EENG 3520 Electronics II

Required Textbook and References

Attendance
Attendance is mandatory. Lecture periods will be utilized to present the principles and theory of the course topics. Class participation and discussion are expected in these sessions. Lab sessions provide students with hands-on experience and help students develop a deeper understanding of concepts. Because we only meet once a week, every class meeting is essential to your success.

Lab report
Lab reports will be required to assess understanding and reinforce the materials covered in the experiment sessions.
- Lab report needs to be uploaded to Canvas at the due date/time.
- Lab reports turned in late will be penalized 50%. No lab report is accepted after 24 hours.
- Students have one week to contest any grade once the grade is posted.

Tests and Exams
There will be 4 Tests and one exam, i.e., the Final Exam. The exam will be based on class lectures and discussions, handouts, and class/lab exercises. Students are responsible for all text material, regardless of whether we review the text material in class or not.
Missed Tests
There are no make-up Tests. If you cannot take the test for any reason, the weight of the test will be put onto the rest of the Tests. Make-up exam accommodations for the Final Exam will only be made if you have a documented university-excused absence (refer to UNT Policy 06.039).

Grading Elements and Weights
Tests: 30%
Labs: 30%
Final Examination: 40%

UNT Policies

ODA Policy
UNT makes reasonable academic accommodations for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one’s specific course needs. Students may request accommodations at any time; however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website (https://disability.unt.edu/).

Prohibition of Discrimination, Harassment, and Retaliation (Policy 16.004)
The University of North Texas (UNT) prohibits discrimination and harassment because of race, color, national origin, religion, sex, sexual orientation, gender identity, gender expression, age, disability, genetic information, veteran status, or any other characteristic protected under applicable federal or state law in its application and admission processes; educational programs and activities; employment policies, procedures, and processes; and university facilities. The University takes active measures to prevent such conduct and investigates and takes remedial action when appropriate.

Student Evaluation of Instruction
SPOT is a requirement for all organized classes at UNT. The survey will be made available at the end of the semester.
Academic Integrity Policy

According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University.

Tentative Course Outline

- Fundamental Communications Concepts (1/17)
  - Lab 1 (Exp. 2): Waveforms/Spectrums in the Time/Frequency Domains (1/24)
- Amplitude Modulation (1/31)
  - Lab 2 (Exp. 3): Introduction to Spectrum Analysis (2/7)
  - Test 1 before the lab
- Angle Modulation (2/14)
  - Lab 3 (Exp. 5): Frequency Modulation: Spectrum Analysis (2/21)
  - Test 2 before the lab
- AM and FM Circuits (2/28, 3/6)
- Spring Break (3/11 – 3/17)
- Transmitters (3/20)
  - Test 3 before the lecture
  - Lab 4 (Exp. 6): Radio-Frequency Amplifiers and Frequency Multipliers (3/27)
  - Lab 5 (Exp. 7): Colpitts RF Oscillator Design (4/3)
- Receivers (4/10)
  - Lab 6 (Exp. 10): Sideband Modulation and Detection (4/17)
  - Test 4 before the lab
- Optical Fiber Communications (4/24)
- Review (5/1)

Final Exam 5/8/2024, Wednesday, 1:30pm – 3:30pm
