Course Objectives

Welcome to our course on the Fundamentals of Information Security! This course provides the foundation for understanding the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. The purpose of the course is to provide the student with an overview of the field of information security and assurance. Students will be exposed to the spectrum of security activities, methods, methodologies, and procedures. Coverage will include inspection and protection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical and managerial responses, and an overview of the information security planning and staffing functions.

Specific topic coverage includes:

- Introduction to Information Security
- The Need for Security
- Legal, Ethical, and Professional Issues in Information Security
- Planning for Security
- Risk Management
- Security Technology: Access Controls, Firewalls, and VPNs
- Security Technology: Intrusion Detection and Prevention Systems and Other Security Tools
- Cryptography
- Physical Security
- Implementing Information Security
- Security and Personnel
- Information Security Maintenance

Course Overview:

There are 10 Units in this course that guide you through all required assignments. Start with **Start Here in this Orientation Unit then proceed to Unit 1.** Be sure to submit all assignments by the posted due dates.

The **Modules link to the left is a good way to navigate the myTCC system.** Complete All Assignments listed under each Lesson.

Due Dates:

Course Due Dates can best be found by clicking the "Calendar" menu item.

Participation

Be sure to also participate by completing the forum posts assigned in several lessons. Throughout the course you are required to post forum replies and to reply to fellow classmates.
In order to get full credit for your forum posts, your response should be at least 50 words in length, and focus on the subject matter at hand. Students are expected to be respectful when reply to your fellow classmates.

Keep in mind that you must also reply to at least 2 posts from fellow classmates in order to earn the respective participation points for that forum as well. Posts that do not adhere to the above criteria will receive reduced points as per the discretion of the instructor.

Assignments and Labs

Along the way there will be assignments and Labs for you to complete that are associated with each lesson. Your assignments will be reviewed you will receive feedback via
the online gradebook system. Do not hesitate to email the teacher prior to the assignment due date if you need help.

- **To prepare for the unexpected, start Assignments and Labs early.**

  A Note on Books

  (recommended but not required) Textbook:
  . Michael E. Whitman, *Principles of Information Security, 7th Edition with Mindtap*. Cengage

Needed Software:

Be sure to download and install the free Office365 for TCC Students. Register with your UNT email.

Moderating Interactivity

The teacher will be monitoring discussion forum post for their substantive nature. Seek to reply to the initial question with at least a 50 word reply. Also be sure to reply to at least 2 classmate posts to get full participation credit.
