Course Description

This course will explore the theories and practices of Postmodern artists by discussing frameworks of engagement, including the pervasiveness of identity politics, along with new modes of artistic communication, focusing on the increasing use of non-traditional artforms like performance and immersive installation, that prevailed in the art world during the second half of the twentieth century.

Course Objectives

- To understand the broad theoretical principles of Postmodernism, as well as the contextual circumstances that spurred its development
- To apply those principles to artistic practices beginning around 1960
- To discuss issues, themes, and debates related to Postmodernism in relation to specific artworks and art-related events
- To synthesize class discussions and assigned readings in response to directed questions on artworks that we have not viewed in class
- To conduct individual analyses on an artist and their relation to issues brought up in class

Course Readings

All course readings will be posted on Canvas, organized by class day. There are no required textbooks for this course. Please prepare the assigned readings **prior** to their listed class day. Recommended background texts: Edward Lucie-Smith, *Movements in Art Since 1945* and Michael Archer, *Art Since 1960*.

Course Requirements and Grading

Class 'Conversation Starters' – 10%

Visit to the TFC + Reflection – 5%

1 Documentary Film Response Paper – 15%

1 Museum Response Paper – 15%

- 1 Artist Response Paper – 15%
- 3 Group Discussion Posts – 30%
- 1 Group In-Class Presentation – 10%

Class 'Conversation Starters' (10%)

This course is not structured as a strict lecture. Discussion, presentation, collective analysis, and other forms of participation will be fundamental to our learning throughout the Spring session. Thus, you are required to attend and participate. I will take attendance at the beginning of each class, and you are encouraged to speak up! To help track attendance and participation, you will have Class 'Conversation Starters' – short class prep assignments – to complete for most class meetings as listed in the syllabus. There will be 18 in all (0.5 pts for each) + 1 pt (.25 each) for attendance on group presentation days. These assignments will be given as canvas quizzes and will be due before the start of each class. **Receiving credit on your conversation starter is contingent on your presence in class.** If you turn in your conversation starter but are not in class that day – you will not receive points.

Visit to the TFC + Reflection (5%)

We will be visiting the Texas Fashion Collection during the semester. Along with the visit and participation in the discussions at the TFC, you will be required to write a short reflection on identity and fashion in the twentieth century as it relates to topics discussed in class.

1 Documentary Film Response Paper – 750-1250 words (15%)

You will be assigned to watch 1 documentary film outside of class. You will respond to this film using information from class discussions and readings. You will also think about the film's approach and address how it added to your understanding of Postmodernism.

1 Museum Response Paper – 750-1250 words (15%)

You will respond to the current display of postwar art in the galleries of the Dallas Museum of Art. You will be required to visit the museum. There will be a scheduled class visit that will include transportation from the Art Building to the museum and back, as well as the cost of the ticket.

1 Artist Response Paper – 750-1250 words (15%)

You will choose an artist and write a paper responding to their practice, detailing how their work engages with topics discussed in class and in course readings.

3 Group Discussion Posts (30%)

Throughout the session, you will conduct a parallel online discussion. This assignment will require you to engage with a controversy that was (and is sometimes still) spurred by Postmodern art. You will provide a 300-word response to a specific prompt and then will respond to one of your classmate's posts with a 100-word response. To help facilitate this online discussion, you will be placed in groups.

1 In-Class Group Presentation (10%)

In groups, you will conduct one in-class presentation. For this presentation, each member of the group will choose an artist that engages with one of the 'modes of communication' – Conceptual Art/PoMo Painting, Performance Art, Land Art/Site-Specific Art, Installation/Sculpture, Video/Photography. You

will then come up with a series of discussion questions with which to engage the class. You will have the entire class to do this presentation. See schedule.

More detailed descriptions of each assignment will be posted to canvas

Course Policies

Latework

Please endeavor to turn your assignments in on time. This is important for keeping the class on track, especially considering how the assignments are structured. Unless there are extenuating circumstances, ***no latework will be accepted***. If these circumstances cause you to miss a deadline, then ***you will have 3 days from the deadline*** to turn in your work for credit. Please communicate with me about missing assignments as soon as possible, do not wait until these 3 days have passed to let me know that you will be turning in your assignment. This extension *does not* apply to work due at the end of the semester or to your group presentation.

Attendance

Your attendance in class is required. I will take attendance in each class and will offer no excused absences for any reason. However, it is always good to communicate with me if you miss class. Your attendance grade will be assessed through the Class 'Conversation Starter' Assignments. ***If you miss a class, you can complete a make-up assignment = a one-full-page summary of one of the readings for the day that you missed (to be turned before the next class day via canvas). *You must ALSO have completed your conversation starter for that day!****

Academic Integrity

Most of your assignments will be submitted to canvas and run through TurnItIn, a plagiarism detection tool that also scans for AI-generated material. Your work **MUST** be 100% your own and written without the use of AI software (be careful, even editing software – i.e. Grammarly – can change your work enough to be flagged by TurnItIn). If you are found to have plagiarized or to have used AI to generate your work, you will receive a **ZERO** on the assignment for the first infraction and you will **FAIL** the class for the second infraction.

Zoom Option

This is a face-to-face course and as such most of your participation must be in-class. However, you may take a Zoom option **ONCE** during the semester as needed. You **must** communicate with me at least one hour prior to class if you will be joining via Zoom and you **must** still submit your 'conversation starter' assignment prior to the beginning of class. During your zoom session, you will also be required to post notes in the chat box to demonstrate that you are participating in class. You **cannot** use your zoom option to participate in your group presentation.

Course Disclaimer

Content in the arts can sometimes include works, situations, actions, and language that can be personally challenging or offensive to some students on the grounds, for example, of sexual explicitness, violence, or blasphemy. The College of Visual Arts and Design is devoted to the principle of freedom of expression, artistic and otherwise, and it is not the college's practice to censor these works or ideas on any of these grounds. Students who might feel unduly distressed or made uncomfortable by such expressions should withdraw at the start of the term and seek another course.

Academic Integrity Standards and Consequences

According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. A finding of academic dishonesty may result in a range of academic penalties or sanctions ranging from admonition to expulsion from the University. [Insert specific sanction or academic penalty for specific academic integrity violation].

The "unauthorized" use of any person or technology that assists in a student's assignment, project, or paper is considered cheating under the UNT Student Academic Integrity Policy (UNT Policy 6.003). Unless a professor or instructor gives explicit "authorization," AI cannot be used to complete assignments, projects, or papers. Doing so will result in a "cheating" violation. AI should not be used to assist in writing papers, searching for sources, or creating citations. Citations provided by AI are fabricated by mimicking existing bodies of work. In most cases, AI will pull direct quotes from existing sources to answer queries and make-up information about the source. AI can be used ethically to help you develop an outline for a paper, generate ideas, and learn a citation style.

ADA Accommodation Statement

UNT makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be

delivered to faculty to begin a private discussion regarding one's specific course needs. Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website at disability.unt.edu

Emergency Notification & Procedures

UNT uses a system called Eagle Alert to quickly notify students with critical information in the event of an emergency (i.e., severe weather, campus closing, and health and public safety emergencies like chemical spills, fires, or violence). In the event of a university closure, please refer to Canvas for contingency plans for covering course materials.

Acceptable Student Behavior

Student behavior that interferes with an instructor's ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The University's expectations for student conduct apply to all instructional forums, including University and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at deanofstudents.unt.edu/conduct.

The Use of Artificial Intelligence

In this course, I want you to engage deeply with the materials and develop your own critical thinking and writing skills. For this reason, the use of Generative AI (GenAI) tools like [Claude, ChatGPT, and Gemini, even Grammarly to a certain extent] is not permitted. While these tools can be helpful in some contexts, they do not align with our goal of fostering the development of your independent thinking. Using GenAI to complete any part of an assignment, exam, or coursework will be considered a violation of academic integrity, as it prevents the development of your own skills, and will be addressed according to the Student Academic Integrity policy.
