

University of North Texas, College of Engineering

Department of Electrical Engineering

EENG 5890 – Directed Study

Instructor

Dr. Xinrong Li

Office: DP B231, Phone: 940-891-6875, Email: Xinrong.Li@unt.edu

Class Meetings

N/A; individual meetings only.

Office Hours

Meeting appointments may be requested by email.

Course Description

Directed study of topics in electrical engineering. The student prepares a plan for study of a topic and a plan for evaluation of study achievements. Open to students with graduate standing who are capable of developing problems, independently.
(1–3 hours)

Textbooks

None.

Prerequisites

Consent of instructor.

Course Objectives

- To obtain research experience in the field of electrical engineering;
- To develop in-depth knowledge and expertise in a specific topic that is related to student's areas of research;

Grading Policies

- Grading is based on the final report that needs to be submitted at the end of the semester. The report is required to describe in details what topic or problem you have worked on, what the research findings are, what you have learned, and how the work is related to your dissertation research.
