Reports: TWO copies of lab report are required: one hard copy and one electronic copy. For electronic copy, please turn in your group reports in PDF format and email it to instructor: Xiaohua.li@unt.edu. Please use key words like “MEEN 3240 Lab I, Group #5, lab report #7” for submitting reports. For hard copy, please turn in it to TA in lab F158 before your new lab session starts. NO late lab reports will be collected.

A **Template** for lab report in MS Word format has been posted in Blackboard. **Download and use the template DIRECTLY. Convert your report to PDF before submitting.**

Due days for lab reports (Definition of “late” lab reports): if not otherwise stated, lab reports due EXACT one week after your lab session. For example, if your group lab session is Tuesday, 9:30 a.m.-10:50 a.m. (this is the first group on Tuesday morning lab session 9:30 a.m.-12:20 p.m.), this means you will do your experiment on every Tuesday 9:30 a.m.-10:50 a.m. Therefore, your lab report will due next Tuesday 9:30 a.m., before the new experiment starts. In this case, lab report turned in after 9:30 a.m. Tuesday will be considered as “late” and will not be collected.

Lecture attendance:

Lecture attendance is mandatory; attendance sheet will be provided and collected for each individual lecture. Lecture attendance will contribute 10% to your final grade.

Lab attendance:

Lab attendance is mandatory; a group picture in front of the lab equipment on the experiment day is required. This group picture should be included in your lab report and will be used to check the lab attendance. Lab attendance will be incorporated in your peer evaluation score.

Teamwork:

Each group should consist of maximum 5 students. Once the group is formed, students will have to stay in the same group and may NOT change group for the entire semester. By definition, a group must have more than one individual. Anyone unwilling or unable to work in a group with multiple other individuals will receive an ‘F’ in MEEN 3240. **Reports submitted by individuals will not be graded.**

Peer Evaluation: A peer evaluation will be performed for any individual experiment if any group member requests such a peer evaluation. Each group member will evaluate the **lab performances** and **report contributions** of other members in the same group anonymously by a scale of 0-100%. 100% means a good job on the assigned part of work while 0% means totally no contribution to the lab and the report. Results of peer evaluation should be sealed in an envelope and turned in to the instructor or TA. The

(average percentage)* (group experiment report score) will be the score of that particular student for that particular lab report.

For example, we assign max 100 points for each lab report, and the score for one group report is 94; Suppose one student received an average peer evaluation of 50%, then this individual student will receive a credit of $94 * 50\% = 47$ points for that particular lab report.

Exam:

- (1) **Exams are closed book closed notes with formula sheets.**
- (2) Formula sheets can be maximum 5 pages, A4 or letter size, both sides
- (3) Each student is responsible for preparing his/her own formula sheets.
- (4) Formula sheets could include anything BUT: data or data analysis from lab reports or experimental manual. Student who failed to follow this rule will score zero in the exam and this cheating matter will be reported to the department and university.
- (5) Formula sheets must be turned in with the exam papers (in the case of formula sheets were not checked by the instructor during the exam). Student who failed to follow this rule will score zero in the exam and this cheating matter will be reported to the department and university.
- (6) **There will be NO make-up exam.** Exceptions: medical emergence (student and important ones), transportation/traffic emergency; religious holidays/duty, jury duty and military duty. **Documentary evidence must be submitted.**

Disability Accommodations: If you need academic accommodations for disability you must have document which verifies the disability and makes you eligible for accommodations, then you can schedule an appointment with the instructor to make appropriate arrangements.

Academic Dishonesty:

There is a zero tolerance policy. Cheating of whatsoever will result in an automatic 'F' in this course and the matter will be turned over to the appropriate student disciplinary committee.

IMPORTANT EXAM DATES

Midterm (Lectures 1-5 and Experiments 1-4):

Oct 12th 2015 Monday 2:30 p.m.-3:20 p.m.; room D201 [for section .001 class]

Oct 14th 2015 Wednesday 2:30 p.m.-3:20 p.m; room B158 [for section .002 class]

Final (non-Comprehensive, Lectures 6-10 and Experiments 5-9):

Nov 30th 2015 Monday 2:30 p.m.-3:20 p.m.; room D201 [for section .001 class]

Dec 2nd 2015 Wednesday 2:30 p.m.-3:20 p.m; room B158 [for section .002 class]
