Homework Policy:

1. “Homework Day”: **Tuesday**. The day new homework will be assigned (HW assignment will be posted in Canvas) and previous homework will be collected through Canvas;
2. Homework should be turned in before the deadline (6:50 pm) through canvas. **NO late homework will be collected, accepted or graded.** (Canvas window will be automatically closed)

Exceptions: refer to UNT Policies 06.039.

An absence may be excused for the following reasons:

- ❖ religious holy day, including travel for that purpose;
- ❖ active military service, including travel for that purpose;

- ❖ pregnancy and parenting under Title IX; and
- ❖ when the University is officially closed.

Procedure: Please request accommodations/exceptions through UNT “Dean of Students Office”

3. Solutions to Homework Assignments will be available in Canvas after HW has been collected.
4. Having no textbook is not a valid excuse for not doing homework. It is the student’s responsibility to acquire textbook for his/her study
5. All homework assignments should be turned in through Canvas. There will be a window/link in canvas open for submitting HW.

Format of Homework:

- (1) **Use engineering paper only (noncompliance: 10 points off; cumulative)**
- (2) **Only solve one problem per page of engineering paper (noncompliance: 10 points off; cumulative).** You may extend that problem into another page but then should begin the next problem on a new page if you require more room. If more than one page is needed for a solution you should number each page and the first page should be marked with a “continued on next page” note on the bottom.
- (3) **Done in pencil, no ink. (noncompliance: 10 points off; cumulative)**
- (4) **No cross outs, use an eraser. (noncompliance: 10 points off; cumulative)**
- (5) **Free-body diagrams (FBD) – WHEN NECESSARY/NEEDED,** Draw a neat FBD that includes arrows with arrowheads, necessary dimensions, and parameters needed to solve the problem
(noncompliance: problem/HW will NOT be graded; no points will be honored)

Example:

Problem Statement

F.B.D

- (6) **Solution** – provide all the details so that anybody can easily follow your solutions and problem-solving approach. All intermediate values should be identified with the variable name and units (e.g., $F_1=50\text{ N}$; $X_c = 2.1\text{ m}$). **(noncompliance: 10 points off; cumulative)**
- (7) **Answer** – the **Final Answer** at the end of the problem should be identified with the **variable name, include units, and inside a box**. Include an arrow (from the far right side of the page) pointing to each final answer.

(noncompliance: 10 points off; cumulative)

Example:

$$F_1 = 50\text{ N}$$
