**Course number and name:** MTSE 4050/5400: Polymer Science & Engineering

**Credits:** 3 Credits.

**Lecture:** MoWe 4:00 p.m. – 5:20 p.m.
**Location:** B157
**Office Hours:** Tuesday 1:00 pm - 2:00 pm. Please email the questions in advance.

**Instructor’s or course coordinator’s name:** Dr. Xiao Li
**Office:** E119, Discovery Park
**E-mail:** Xiao.Li@unt.edu **Phone:** 940-565-2603

**Teaching Assistants:** TBD

**Text book, title, author, and year**

  a. **Other supplemental materials**

**Specific Course Information**

  a. **Brief description of the content of the course (catalog description)**
     Polymer science & engineering focus on understanding basic principles of polymer physics. Topics include general introduction of polymers, polymerization, chemical structures, molecular architecture, bonding in polymers, structure isomerism, molecular weight, chain conformation, polymer solutions, glass transition, thermodynamics, mechanical properties, linear viscoelasticity, rubber elasticity, crystalline polymers, block copolymers.

  b. **Prerequisites or co-requisites**
     MTSE 3000. 3001

  c. **Indicate whether a required, elective, or selected elective course in the program**
     Required

**Specific goals for the course**

  a. **Specific outcomes of instruction**

<table>
<thead>
<tr>
<th>Specific Course Learning Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Understand changes in molecular structure affect the polymer performance</td>
</tr>
<tr>
<td>2. Using classic polymer theories to calculate energy change for polymer solution and mixing two polymers; understand interaction parameter</td>
</tr>
</tbody>
</table>
3. Understand the mechanical properties of polymers and associate them with their
different states: glassy, rubbery, and viscous fluid states

4. Understand a measurement of polymer at a certain temperature and time is
equivalent to a measurement at a lower temperature and longer time.

b. Explicitly indicate which of the student outcomes listed in Criterion 3 or any other
outcomes are addressed by the course.

This course addresses ABET Student Outcome 7:
an ability to acquire and apply new knowledge as needed, using appropriate learning
strategies

List of topics to be covered

I. Introduction
II. Chemical structures
III. Polymerization
IV. Molecular architecture
V. Structure isomerism
VI. Molecular weight
VII. Chain conformation
VIII. Polymer solutions
IX. Glass transition
X. Mechanical properties
XI. Linear viscoelasticity
XII. Rubber elasticity
XIII. Crystalline polymers
XIV. Block copolymers

Lecture Notes will be posted on Canvas: Lectures, homework assignments, solutions will be
posted on Canvas. [https://unt.instructure.com/login/ldap](https://unt.instructure.com/login/ldap)

Notes:
1. The lectures will be delivered face to face. Canvas will be used as the communication tool
as well for posting homework assignments, homework solutions, formula sheets; submitting
homework. Quizzes and exams will be conducted in person.
2. Each quiz will be limited to one or two problems with a time limit of 30 minutes. The
content will be based on recent homework problems and sample problems gone over in class.
3. Each exam will include a combination of (A) short answer questions, and (B) quantitative
problems.
4. There would be two exams, which will be weighted equally to determine the exam average
component of the grade. Each exam builds up on understanding previous chapters and, hence, the
final exam is progressively comprehensive.
5. For all exams and quizzes, you may use a calculator during the exam. Cell phones, other
laptops, etc. will not be allowed.
Calculators: Programmable calculators are not allowed. Bring them to quizzes and exams. You must have an inexpensive scientific calculator that can solve:
- Trig functions (SIN, COS, TAN)
- Exponentials (e^x)
- Square Root (√x)
- Natural Logs (LN)
- Logs (LOG)
- Inverse

Cell Phones: Please remember to turn off phones prior to class. Cell phones are not allowed during quizzes or examinations.

Tentative Grading Scheme with weight percent contributions to the final grade (subject to change):
- Homework Average: 20%
- Quiz Average: 20%
- Exam Average: 60%

Makeup Exam Policy: If a student cannot take an exam on the scheduled date due to some unavoidable circumstances, such as out of town business trip, sickness, etc., then he/she must notify the instructor in writing before the scheduled exam time to schedule a makeup exam. If allowed, a 5-10% penalty will be assessed.

Class Attendance is Mandatory. Please notify me if you have to miss a class or will be late.
While attendance is expected as outlined above, it is important for all of us to be mindful of the health and safety of everyone in our community, especially given concerns about COVID-19. Please contact me if you are unable to attend class because you are ill, or unable to attend class due to a related issue regarding COVID-19. It is important that you communicate with me prior to being absent so I may decide about accommodating your request to be excused from class.
If you are experiencing any symptoms of COVID-19 (https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html) please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Hotline at 844-366-5892 or COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure. While attendance is an important part of succeeding in this class, your own health, and those of others in the community, is more important.

Technical Assistance
Part of working in the online environment involves dealing with the inconveniences and frustration that can arise when technology breaks down or does not perform as expected. Here at UNT we have a Student Help Desk that you can contact for help with Canvas or other technology issues.
UIT Help Desk: UIT Student Help Desk site (http://www.unt.edu/helpdesk/index.htm)
Email: helpdesk@unt.edu
Phone: 940-565-2324  
In Person: Sage Hall, Room 130  
Walk-In Availability: 8am-9pm  
Telephone Availability:  
- Sunday: noon-midnight  
- Monday-Thursday: 8am-midnight  
- Friday: 8am-8pm  
- Saturday: 9am-5pm  
Laptop Checkout: 8am-7pm  

Disabilities Accommodation  
The University of North Texas complies with Section 504 of the 1973 Rehabilitation Act and with the Americans with Disabilities Act of 1990. The University of North Texas provides academic adjustments and auxiliary aids to individuals with disabilities, as defined under the law. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring accommodation, please see the instructor and/or contact the Office of Disability Accommodation at 940-565-4323 during the first week of class.

Additional Policies  
Authorized Absences and Extenuating Circumstances  
Absences due to extenuating circumstances or participation in sponsored must be verified by the Dean of Students. Consideration of such absences will be made for quizzes and examinations, but not homework. For participation in sponsored activities, you must seek approval prior to the absence. For extenuating circumstances, you have 1 week to contact me and/or the Dean of Students to begin the process.

Absence for Religious Holidays  
In accordance with state law, a student absent due to the observance of a religious holiday may take examinations or complete assignments scheduled for the day(s) missed, including those missed for travel, within a reasonable time after the absence. The student is responsible to notify the instructor of each class of the date of the anticipated absence as early in the semester as possible. Only holidays or holy days observed by a religion whose place of worship is exempt from property taxation under Section 11.20 of the Tax Code may be included. A student who is excused under this provision may not be penalized for the absence.

Academic Integrity  
– Plagiarism and cheating will NOT be tolerated.

Statement of Expectations for Student Conduct  
You will be expected to conduct yourself in a professional manner. Academic dishonesty such as plagiarism and cheating will NOT be tolerated. Therefore, students are expected to be honest and ethical in their academic work. Academic dishonesty is defined as an intentional act of deception in one of the following areas:
* cheating – use or attempted use of unauthorized materials, information or study aids
* fabrication – falsification or invention of any information
* assisting – helping another commit an act of academic dishonesty
* tampering – altering or interfering with evaluation instruments and documents
* plagiarism – representing the words or ideas of another person as one's own.
For more information about academic integrity and the University's policies and procedures in
this area, please see the UNT academic manual. Any student in violation of these policies will be
given an overall F grade (Fail). In addition, your case will be forwarded to university
administrators, and you may be subject to additional punishments/sanctions according to
university policies. If you have any questions on this, please discuss with me or someone in the
Office of Academic Integrity.
