6. NETIQUETTE

It is important for students to recognize that the online classroom is in fact a classroom, and certain behaviors are expected when you communicate with both your peers and instructors. In an online class it is common for a very substantial portion of your grade to be a function of how well you perform in online discussion areas and other “classroom participation” activities. Your ability to clearly and properly communicate in an online class can be as important to your success as how you perform on multiple-choice tests and written assignments.

These guidelines for online behavior and interaction are known as “netiquette”. When communicating online, you should always:

- Treat the instructor with respect, even in email or in any other online communication.
- Use clear and concise language. Be respectful of readers’ time and attention.
- Remember that all college-level communication should have correct spelling and grammar.
- Avoid slang terms such as “wassup?” and texting abbreviations such as “u” instead of “you”.
- Use standard fonts such as Times New Roman and use a size 12 or 14 pt. font.
- Avoid using the caps lock feature AS IT CAN BE INTERPRETED AS YELLING.
- Be cautious when using humor or sarcasm as tone is sometimes lost in an email or discussion post and your message might be taken seriously or offensive.

7. COURSE EXPECTATIONS**1) Student Responsibilities**

As a student in this course, you are responsible for:

- reading/watching all materials posted on Canvas in a timely manner.

Academic Integrity: *Plagiarism is taking credit for someone else's work whether deliberately or unintentionally. This includes but is not limited to turning in all or part of an essay written by someone else (a friend, an internet source, etc.) and claiming it as your own, and including information or ideas from research material without citing the Source. Feel free to consult with me before completing assignments if you have any questions about what does or does not constitute plagiarism. More generally, please familiarize yourself with UNT Policy 06.003, [Student Academic Integrity](#), which applies to this course. Of course, I do not anticipate any problems with academic integrity. In the unlikely event that any concerns do arise on this score, I will forward all related materials to the Office of Academic Affairs and the Dean of Students Office for an impartial adjudication. Plagiarism is a serious offense and will not be treated lightly. Depend on the seriousness of the offense, **it may lead to an "F" or a numerical value of zero on the assignment, an "F" or an "FF" grade (the latter indicating academic dishonesty) in the course, suspension, or expulsion from the University.***

Diversity and Inclusion Statement: *Your experience in this class is important to me. If you have already established accommodations with UNT Office of Disability Access (ODA), please communicate your approved accommodations to me at your earliest convenience so I can accommodate your needs in this course.*

Furthermore, it is my intent that students from all diverse backgrounds and perspectives are well served by this course, that students' learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength and benefit. I would like to create a learning environment for my students that supports a diversity of thoughts, perspectives and experiences, and honors your identities (including race, gender, sexuality, religion, disability, socioeconomic status, culture, etc.) To help accomplish this:

- If you have a name and/or set of pronouns that differ from those that appear in your official college records, please let me know (via private email or Canvas discussion forum).*
- If you feel like your performance in the class is being impacted by your experiences outside of class, please don't hesitate to come and talk with me. I want to be a resource for you. Please feel free to contact me (in person or electronically) if you have any suggestions to improve the quality of the course materials. If you prefer to speak with someone outside of the course, the Associate Dean of CMHT is an excellent resource.*
- I (like many people) am still in the process of learning about diverse perspectives and identities. If something was said in class (by anyone) that made you feel uncomfortable, please talk to me about it. As a participant in course discussions, you should also strive to honor the diversity of your classmates.*
- If any of our class meetings conflict with your religious events, please let me know so that I can make arrangements for you.*
