FINANCE 5210-001: INVESTMENTS
Fall 2023

PROFESSOR: Ian Liu, Ph.D., CFA
CLASS: Mon 6:30-9:20 PM  BLB073
E-MAIL: Ian.Liu@UNT.edu through Canvas
OFFICE HOURS: Mon 10:00 -11:30 AM
TA: Chunyan Liu ChunyanLiu@my.unt.edu

COURSE DESCRIPTION
This course covers the basics of investment with a focus on the equity market. Investment is a blend of theory and practice, and we learn that way. Theory is based on the textbook, but the applications extend beyond the book into the real stock market and derivative markets.

COURSE OBJECTIVES
We have three objectives: Topic one (Elements of Investments) guides you to start to be an investor, topic two (Valuation and Fundamental Analysis) teaches you to be a better investor and topic three, four and five (Portfolio Theory, Equilibrium in Capital Markets and Derivatives) train you to be a relatively sophisticated investor. The philosophy of the instruction is to “Free Your Mind”. Students are encouraged and required to actively create and use knowledge, not passively receive and memorize recycled information. Students are expected to be able to handle investment problems that they don’t see in class by using the skills they learn in class.

PREREQUISITES:
Prerequisite(s): FINA 5170 or equivalent; ECON 1100 or ECON 5000 or equivalent; ACCT 2010 or ACCT 5020 or equivalent; MATH 1190 or equivalent, or consent of department.

COURSE MATERIALS
➢ Calculator: A calculator is required for this course. There is no sharing of calculators during the exam.
➢ Database and Platform: Bloomberg Terminal, Morningstar Direct

</tbody>
</table>
Scale
➢ A = 90 – 100
➢ B = 80 – 89.9
➢ C = 70 – 79.9
➢ D = 60 – 69.9
➢ F = 0 – 59.9

I will try to adhere to the above grading scale but I reserve the right to deviate from it. I don’t negotiate grades. You earn them. I will not respond to requests for “extra credits”, “special treatment”, “boost”, “bonus” or “curving”. Your grade won’t change because you “need”, or “deserve” better grades.

GRADE APPEALS
All grade appeals must be done within three days of the posted grade. I will not look into grades appealed after three days past the date of grade postings for any exam. All appeals of exam grades must be written and emailed to me.

HOMEWORK
➢ Homework must show major steps. You cannot just provide a final answer.
➢ Homework should be submitted online through Canvas (a text entry box or a WORD file upload). Other forms (emails, hard copies etc.) will not be accepted.
➢ Homework is due every Saturday when there is homework assigned for the week. Late homework will not be accepted (no excuses: bad internet connection, bad memory, etc.) No email asking for extension.

EXAMS
➢ Exams will cover only lecture material.
➢ Any missed exam will receive a grade of zero if no legitimate reasons are provided by the student and approved by the instructor before the exam. When approved, the student can carry the weight of the missed midterm to the final. There will be no make up for the final.
➢ A web camera or a laptop with integrated camera is required for all remote exams. It is your responsibility to obtain a properly functioning camera for remote exams. Your test score will be invalid without a functioning camera. All remote exams will be administered through Canvas using Respondus Lockdown Browser with Camera option. Respondus Lockdown browser can be downloaded through your Canvas account.

CLASS PARTICIPATION
➢ Participation: The course is to be taught in an interactive style. Raising and answering questions are extremely important.
➢ Class attendance is required and awarded. You can earn up to extra 2% of your course score depending on your attendance record.
➢ If a student misses a class it is the student's responsibility to find out what material was covered in class and to catch up.
➢ You should try to read the chapter before we cover it in class. Use the PPT notes to help you read. Reading ahead will help you participate in the conversation in class.
➢ If you are experiencing any symptoms of COVID (https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html) please seek medical attention from the Student Health and Wellness Center (940-
565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Team at COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure.

CLASSROOM BEHAVIOR

➢ Be respectful to your classmates. I will not tolerate behaviors that interrupt the class. No chit chat with students sitting around you. Keep your private conversations out of the classroom. It is not acceptable to have your phone go off during the class. It is not acceptable to leave the classroom during the lecture without informing me before the class. Use electronic devices only for strict class related matters.

DROPPING THE COURSE

Students wishing to drop a class should visit the Registrar’s website for assistance: https://registrar.unt.edu/registration/dropping-class
There are different procedures depending on whether the class is dropped before or after the census date for the term.

DISABILITY ACCOMODATION

UNT makes reasonable academic accommodation for students with disabilities. Students seeking accommodation must first register with the Office of Disability Accommodation (ODA) to verify their eligibility. If a disability is verified, the ODA will provide a student with an accommodation letter to be delivered to faculty to begin a private discussion regarding one’s specific course needs. Students may request accommodations at any time, however, ODA notices of accommodation should be provided as early as possible in the semester to avoid any delay in implementation. Note that students must obtain a new letter of accommodation for every semester and must meet with each faculty member prior to implementation in each class. For additional information see the ODA website (https://disability.unt.edu/).

ACADEMIC DISHONESTY

Academic dishonesty is defined in the UNT Policy on Student Standards for Academic Integrity. Any suspected case of Academic Dishonesty will be handled in accordance with the University policy and procedures. Possible academic penalties include a grade of “F” in the course. You will find the policy and procedures at http://vpaa.unt.edu/academic-integrity.htm

If I suspect that you have engaged in academic dishonesty, I will deal with the situation as outlined in the University Policy shown above. You will be allowed to remain in the class during the entire time that the academic misconduct accusation is being investigated, adjudicated, and appealed. As noted above, the maximum academic penalty that can be assessed by an instructor is an F in the course. However, university officials use the academic misconduct information to decide if other misconduct sanctions are then
to be applied, and the student has separate rights to appeal those decisions, remaining in
the class until all appeals are exhausted.

STUDENT PERCEPTIONS OF TEACHING (SPOT)

Student feedback is important and an essential part of participation in this course. The
student evaluation of instruction is a requirement for all organized classes at UNT. The
SPOT survey will be made available during weeks 13 and 14 of the long semesters to
provide students with an opportunity to evaluate how this course is taught. Students will
receive an email from "UNT SPOT Course Evaluations via IASystem Notification" (no-
reply@iasystem.org) with the survey link. Please look for the email in your UNT email
inbox. Simply click on the link and complete your survey. Once you complete the
survey you will receive a confirmation email that the survey has been submitted. For
additional information, please visit the spot website at www.spot.unt.edu or email
spot@unt.edu.

EAGLE CONNECT ACCOUNT

All students should activate and regularly check their EagleConnect (e-mail) account.
EagleConnect is used for official communication from the University to students. Many
important announcements for the University and College are sent to students via
EagleConnect. For information about EagleConnect, including how to activate an account
and how to have EagleConnect forwarded to another e-mail address, visit
https://eagleconnect.unt.edu/

EMERGENCY EVACUATION PROCEDURES FOR BUSINESS LEADERSHIP
BUILDING:

- **Severe Weather** In the event of severe weather, all building occupants should
immediately seek shelter in the designated shelter-in-place area in the building. If
unable to safely move to the designated shelter-in-place area, seek shelter in a
windowless interior room or hallway on the lowest floor of the building. All
building occupants should take shelter in rooms 055, 070, 090, and the restrooms
on the basement level or in rooms 170, 155, and restrooms 122, 182 or 183 on the
first floor.

- **Bomb Threat/Fire** In the event of a bomb threat or fire in the building, all
building occupants should immediately evacuate the building using the nearest
exit. Once outside, proceed to the designated assembly area. If unable to safely
move to the designated assembly area, contact one or more members of your
department or unit to let them know you are safe and inform them of your
whereabouts. Persons with mobility impairments who are unable to safely exit
the building should move to a designated area of refuge and await assistance from
emergency responders. All building occupants should immediately evacuate the
building and proceed to the south side of Crumley Hall in the grassy area, west of
parking lot 24.

*The stated schedule and procedures in this course are subject to change in the event of extenuating circumstances.*
Security Analysis Project

As a stock market analyst, you should recommend one stock to your investors. Write a 25 page (double space) report (not including tables or charts copied from other recourses) following the stock analysis template. You should also include any Excel spread sheets used in your analysis. Each team (including every team member) will do a PowerPoint presentation (about 30 minutes) in class. Some guidelines:

- Each team member should contribute to and understand the whole project.
- The project should be presented in a professional way.
- The report should be assembled in a professional way.
- The written report, PowerPoint and Excel files should be emailed to me two days before your group’s presentation.

Framework of Security Analysis Project

Your group can choose one of the following stocks to analyze: Apple, Alphabet, Amazon, Alibaba, AT&T, Airbnb, Boeing, Chipotle, DocuSign, Fiverr, Groupon, iRobot, iMax, Lyft, Meta, Netflix, PayPal, Pinterest Roblox, Roku, Spotify, Shopify, Snap, Sofi, Teladoc, Tesla, Tencent, Uber, Verizon, and Zoom. You can also choose any stock that is not in the list.

I. Quick opinion. Summarize your analysis by simple numbers, including: Report Date, S&P value, Last Price (when the report is submitted), Intrinsic Value, Economic Moat, and Recommendations. Use the Morningstar style and put this session on the top your report.

II. The Theme: This part highlights your major insights into the company and its stock.

III. Business Analysis: When you buy stock of a company, essentially you are buying the business. Analyzing a stock starts with understand its business.
   - Profile of company (in your own words)
   - Macroeconomic and industry analysis
   - Analysis of the company and the prospects of its major products and services.

IV. Financial analysis: Major financial statements and ratio analysis. More important is forecasting the future. More specifically, a projection of sales, margins (gross margin, operating margin, profit margin), profits and most important, earning per share (EPS) for the coming quarter and fiscal year end. It should also project growth rate of sales and earnings for next five years. Extensive use of spreadsheets is expected. Use historical data from Morningstar Direct in your analysis. From Morningstar Direct, you should be able to obtain historical moat rating, star rating, all historical financial statement data and data derived from financial statements. Try to project long term trend using those historical data.

V. Stock Valuation: Calculating the fair current value (Intrinsic Value) of the stock. In theory, fair value (also called intrinsic value) is what the stock price should be given the market is free from errors. It can be calculated in various ways, depending on what model you use. Commonly used models are P/E multiples, Dividend discount models and Free Cash Flow models. This analysis needs the help of analytical tools like Excel. Some reports also project expected stock price in one year.
VI. **Bulls vs. Bears:** There are always bull and bear views for any stock. That is why at any price, there are buying and selling orders—the two side of the same coin of a transaction. Try to see the arguments for two sides.

VII. **The moat:** You should also discuss the economic moat (a concept borrowed from Warren Buffet), which is the sustainable competitive advantage in the long term.

VIII. **Risk:** the risks of investing in the company

IX. **Investing strategy:** this is your action plan as an investor. Your strategy choices include buy, sell, hold, wait, avoid, short, etc…

X. **Notes:** A timely records of analysis of important events of the company and its stock

XI. **Reference:** You MUST cite ALL resources your analysis uses.
- It is OK to use information from various resources. It is not acceptable not to cite them. Just listing several websites at the end is not the correct way of citation. Citation is always important for other investors to check your facts and numbers.
- Whenever an external recourse is used, you should use footnotes like this:
  Recent Morningstar reports states that “Unprecedented increases in commodity costs have put a strain on Kraft’s profitability.” ¹ All cited information must be quoted using quotation marks and Italicize the text like the example. Each citation cannot be longer than three sentences.
- You can use external resources for historical financial statement data, but projections for future performance and calculations of intrinsic values must be your own.

---

**Analysis/Presentation Tips**

1. Do not just list facts, form opinions, especially opinions that are related to intrinsic value.
2. It is an investment analysis, not a business/strategy project.
3. Discuss your key valuation assumptions in your presentation (short term growth, long term growth rate, discount rate, etc..) and focus on key findings.

---

Project midterm report:
A two pages report summarizing your progress and findings, including
- Stock choice, group names
- Your theme, in less than 100 words.
- Preliminary Business analysis and key findings
- Preliminary Financial analysis and key conclusions
- Fair value estimation
- Team representative or representatives will present the quick report.

---

¹ Morning star report on KFT, October 2020
**Bonus Project: Who wants to be a millionaire! (This is an individual trading simulation project)**

a. Register and Log-in to Virtual Stock Exchange Games ([www.marketwatch.com/game](http://www.marketwatch.com/game)). You must use your real name to be graded.
b. Join game: UNT2023Fall  Game Password: JustTradeIt
c. Start trading stocks from “UNT2023Fall”. You can also view your portfolio, trade history, benchmarks, and rankings.
d. Your grade of the project is related with the relative performance of your portfolio (at the end of the term) and how active you are in trading.
e. The project is due on Dec 8, 2023 (last trading day). All you need to do is trading and taking notes. No report needed.
