

RMIN 2500 Personal Risk Management Fall 2025

Course Administration

Professor: Dr. Yu-Luen Ma
Class Periods: Tu/Th 11:00am – 12:20pm BLB 065 & online via Canvas (<https://unt.instructure.com/>)
Office: BLB 378A
Telephone: 940-565-2299
E-mail: Yu-Luen.Ma@unt.edu
Office Hours: Tuesday 1:30-3:00pm or by appointment. Office hours are held both in person and via Zoom.

Please keep in mind that I am here to help you achieve success and I am working to create a learning environment that helps you learn more efficiently. I encourage you ask questions and/or for help both in and out of class. Please do not hesitate to stop by during my office hours or contact me via e-mail whenever you have any concerns, questions or suggestions for the class. I communicate with students via e-mail frequently. **Please make sure that you check your UNT e-mail on a daily basis.**

Text and Material

1. *Principles of Risk Management and Insurance* / Rejda, 14th ed. (several copies of the textbook are available in the Sycamore Library Reserve).
2. Video lectures are available on Canvas (<https://unt.instructure.com/>).
3. Course packet, which includes PowerPoint slides, practice problems and sample insurance policies.

Canvas

This is a blended course, which means there are online learning components as well as face-to-face class meetings. The course is designed to take advantage of the best features of both face-to-face and online learning. You are expected to view lecture videos on Canvas BEFORE coming to each meeting so we can focus on reinforcing lecture concepts and applications of course materials during our class time (a detailed course calendar for the semester can be found on Canvas “Syllabus” section). To view lecture videos, you will need access to the Internet. If you are having difficulty with getting your computer set up correctly, you can contact UIT Help Desk 940-565-2324 or helpdesk@unt.edu.

In addition to lecture video clips, you can obtain course syllabus, PowerPoint slides, homework assignments, additional practice problems and review notes, as well as taking optional quizzes via Canvas. To log into the course, go to the Canvas main page (<https://unt.instructure.com/>) via Firefox web browser. Please try to log onto the Canvas pages as soon as you have officially enrolled in the course. If you have trouble accessing the pages please let me know as soon as possible.

Course Description

This course introduces the fundamental concepts of risk management, insurance industry, and insurance mechanism including pricing, underwriting, reinsurance and marketing. Several personal insurance products will also be discussed. A major focus of the class is on the application of insurance principles to the creation of a “Grade Insurance” product. **Students who have taken (or are currently taking) RMIN 3100 are not eligible to take this course.**

Upon completion of the course requirements, students should be able to:

- Comprehend the meaning of different types of risks.
- Identify appropriate methods in managing risks.
- Explain the characteristics of insurance and insurable risks.
- Explain different types of insurance programs and products.
- Understand insurance terminology and components of insurance contracts.
- Explain different functions in insurance company operations.
- Explain the rationale for policy design and provisions.
- Work in a team to design an insurance contract and market the product to the target audience.
- Enhance their written and verbal communication skills, as well as time management skills.

Grading

The student's grade in this course will be determined using the following system:

Exam 1	100 points
Exam 2	100 points
Exam 3	100 points
Final Exam (12/9, 10:30am-12:30pm)	100 points
Group Project	100 points
Homework assignments	85 points
Attendance	20 points
<u>Career Portfolio</u>	<u>10 points</u>
Total points	615 points

Three exams will be given during the semester in addition to a final exam. Exam dates can be found on page 5 of the syllabus. **Only non-graphing calculators are allowed on exams.** You are required to inform me of any schedule conflict at least two weeks in advance. A student who misses any of the exams without an excused absence prior to an exam will receive a score of zero for that exam. Same rules apply to assignments. We will use part of the class period after the exam to discuss exam results. The final exam is cumulative and will cover all topics that have been discussed throughout the entire semester. The final grades will be based on the total points from all graded material using the following scale:

553 – 615 = A	492 – 552.9 = B	430 – 491.9 = C
369 – 429.9 = D	below 369 = F	

Homework

During the course of the semester homework assignments related to the lectures and the project will be given. **All assignments are due at 10:50am on the due date.** You are required to type your answers and submit your completed assignments via Canvas before the deadline. Late submission *may* be accepted within 24 hours with a minimum of 25% penalty assessed. Penalties begin immediately after the deadline has passed. Late submission will not be accepted once solution has been posted. You should have plentiful amount of time for each assignment and thus I expect you to have all questions addressed BEFORE the assignment is due. No questions will be answered after 6:00pm prior to the due date of assignments or exams for the corresponding materials.

Career Portfolio

To help you prepare for the **RMI Career Fair (October 30th, 2-4 pm, Union 314)** and the job market, you are required to create a professional resume that is approved by the Career Center and set up your LinkedIn profile so you are ready for job fairs, interviews, and making professional connections, etc. Detailed guidelines for the professional resume and the LinkedIn profile are available on Canvas.

Optional Quizzes

To encourage you to read the textbook, bonus points are given to students who take quizzes on line. Quiz questions are directly related to the corresponding chapters in the textbook. Each quiz contains 12 questions. For each quiz that you answer 10 or more questions correctly, you will receive 1 extra point on the coming exam. Note that each quiz is available on a limited time basis (please check Canvas for quiz schedule).

Attendance

Regular class attendance of all students is expected during our face-to-face meetings. Students who miss a significant number of classes may be withdrawn from the class at the discretion of the instructor. Students who choose not to attend a class are solely responsible for missing any announcements for homework, exams, etc. I encourage you to get to know other students in this class so you can help each other learn and make up missed materials, if any. Study groups are highly recommended. You are expected to be **ON TIME** for every meeting and you are **REQUIRED** to attend the class when guest speakers visit our class. It is important that you communicate with me prior to being absent, so we can discuss and mitigate the impact of the absence on your attainment of course learning goals. Please inform me if you are unable to attend class meetings because you are ill, in mindfulness of the health and safety of everyone in our community.

Extra Credit

Multiple extra credit opportunities are offered to the entire class throughout the semester. This usually relates to your attendance at events where guest speakers are on campus, Gamma Iota Sigma (GIS) meetings, professional luncheons in the DFW area, and your other involvement in risk and insurance related activities. **GIS members are eligible for many scholarships and you are strongly encouraged to become a GIS member and participate in GIS sponsored events.** For each qualified event that you participate, you earn 2 extra points. A maximum of 20 points may be earned. I will announce either in class, via Canvas and/or e-mail ahead of time of each opportunity.

Academic Integrity

All students enrolled in class are expected to maintain high standards of ethical conduct within the classroom and when completing assignments, projects, and/or exams. According to UNT Policy 06.003, Student Academic Integrity, academic dishonesty occurs when students engage in behaviors including, but not limited to cheating, fabrication, facilitating academic dishonesty, forgery, plagiarism, and sabotage. Unauthorized assistance on examinations, homework, research papers or case analyses in any forms is not allowed for any reason. Copying or using material from any source prepared by or previously submitted by others, at UNT or other institutions, or downloaded from the Internet, is plagiarism. Unless directed otherwise in an assignment, large scale “cutting and pasting” from other sources, even if properly footnoted, is not appropriate. Students are expected to conduct themselves in a manner consistent with the University's status as an institution of higher education. A student is responsible for responding to a request to discuss suspected academic dishonesty when issued by an instructor or other University official. If a student fails to respond after a proper attempt at notification has been made, the University may take appropriate academic actions in the absence of the student's participation.

Accommodation for Students with Disabilities

Students in need of special accommodation should contact the staff in the Office of Disability Accommodation. Information regarding policies for obtaining academic accommodations can be found at <http://www.unt.edu/oda/apply/index.html>

Emergency Evacuation Procedures for Business Leadership Building

- **Severe Weather** In the event of severe weather, all building occupants should immediately seek shelter in the designated shelter-in-place area in the building. If unable to safely move to the designated shelter-in-place area, seek shelter in a windowless interior room or hallway on the lowest floor of the building. All building occupants should take shelter in rooms 055, 077, 090, and the restrooms on the basement level. In rooms 170, 155, and the restrooms on the first floor.
- **Bomb Threat/Fire** In the event of a bomb threat or fire in the building, all building occupants should immediately evacuate the building using the nearest exit. Once outside, proceed to the designated assembly area. If unable to safely move to the designated assembly area, contact one or more members of your department or unit to let them know you are safe and inform them of your whereabouts. Persons with mobility impairments who are unable to safely exit the building should move to a designated area of refuge and await assistance from emergency responders. All building occupants should immediately evacuate the building and proceed to the south side of Crumley Hall in the grassy area, west of parking lot 24.

Course Schedule

Please pay close attention to the meeting location on each date. If there is any change during the semester, I will announce it in class and post the updated schedule on Canvas. You are required to watch the video lectures and finish the reading materials **BEFORE** each discussion session.

Date	Topic	Textbook Chapters	Location
8/19	Course overview		BLB 065
8/21	Video lecture 1: Introduction to Risk Management	Chapters 1 & 3	Canvas
8/26	Discussion 1		BLB 065
8/28	Video lecture 2: Introduction to Insurance	Chapter 2	Canvas
9/2	Discussion 2		BLB 065
9/4	Video lecture 3: Liability Risk	Chapter 19	Canvas
9/9	Discussion 3		BLB 065
9/11	Exam 1		BLB 065
9/16	Grade Insurance Lab 1		BLB 065
9/18	Video lecture 4.1: Insurance Company Operation Video lecture 4.2: Insurance Industry	Chapters 5 & 6	Canvas
9/23	Discussion 4		BLB 065
9/25	Grade Insurance Lab 2		BLB 065
9/30	Video lecture 5.1: Insurance Principles Video lecture 5.2: Insurance Contract Basics Video lecture 5.3: Financial Ratios and Regulation	Chapters 7, 9, 10	Canvas
10/2	Discussion 5		BLB 065
10/7	Grade Insurance Lab 3		BLB 065
10/9	Guest Speakers - UNT Alumni Panel		BLB 065
10/14	Exam 2		BLB 065
10/16	Grade Insurance Lab 4		BLB 065

11/11	Grade Insurance Lab 6		BLB 065
11/13	Exam 3		BLB 065
11/18	Grade Insurance Lab 7		BLB 065
11/20	Grade Insurance Lab 8		BLB 065
Thanksgiving Break			
12/2	Grade Insurance Fair		BLB 065
12/4	Review and Grade Insurance Offering		BLB 065

RMIN 2500 “Grade Insurance” Project Assignment

For the purposes of this project, assume yourself to be an employee of an insurance company and your group has been asked to develop a grade insurance product to be marketed to students taking RMIN 2500. You should work on this project in teams of four to five students. This project contains four components: a written strategy proposal (60 points), a sample insurance policy (15 points), a brochure (15 points) and a poster board session (10 points). Your submission must meet high professional standards and is clear and concise; typos, poor formatting, sloppy presentation, etc. will hurt your grade. The Grade Insurance Fair (poster board session), which is also the due date of the project, is scheduled on **December 2**. You are required to present your products to your target market during the Grade Insurance Fair. Details of each component of the project are outlined below.

Written Strategy Proposal

This document is written to be submitted to the senior management (Dr. Ma) of your conglomerate. Senior management wants to understand the nature of the policy, the rationale for the policy structure and its pricing. Therefore, be open and straightforward in its presentation, i.e. you are not trying to sell them the product, but rather, you are trying to convince them that the product is viable and well thought-out. At a minimum, your proposal must include the following sections:

- Cover Page
- Table of Contents
- Introduction
- Appropriate discussions on:
 - Policy Design Rationale (including moral hazard & adverse selection consideration):
 - Deductibles and indemnification limits
 - Risk classification
 - Other provisions (i.e. policy design that enhances demand or reduce moral hazard)
 - Pricing (how you calculate your pure and gross premiums as well as loading design)
- Conclusion
- Appendix (make sure you include the pricing spreadsheets)
- Sample Policy (see the next section for requirements)
- Sample Brochure (see the next section for requirements)

Sample Policy

- Similarity of structure to sample policies found in the appendices of the course textbook.
- Appropriate content
 - Declarations page of an applicant
 - Definition
 - Summary table of policy design (i.e. premium, deductible, limit, risk level, etc. of all policies that you offer)
 - Various provisions

Brochure (and application form)

- Appropriate content (i.e. important policy provisions)
- Ability to be used as an insuring agreement (i.e. collecting underwriting information)
- Professional appearance

In order to make sure you are making reasonable progress in your assignment, there are a couple of deadlines you have to keep in mind. There are also two assignments where each group member should complete individually.

- You should form your group by **September 23**. As a group, send me an e-mail before **11:59pm of September 23** (and copy this e-mail to everyone in the group) with the subject line “RMIN 2500: *Your Company Name*”. The e-mail should contain the following information:
 - ✓ Names, e-mail addresses, and telephone numbers of all group members.
 - ✓ Insurance company name for your group.
 - ✓ A designated contact person for the group. (i.e. One person I can contact if I need to deliver a message to your group. That person will be responsible for relaying the message to the rest of the group.)
 - ✓ A list of expectations for the group members. Examples of issues to consider include meeting times, meeting frequency and initial responsibilities/division of labor of your group members. Feel free to add other issues.
- Insurers need certain information from policyholders for underwriting purpose. I will provide exam results of your potential customers to every group. If your group would like additional underwriting information about your potential customers (other than exam scores), you need to send me the list (via e-mail) before **11:59pm of September 25**. In the subject line of your e-mail submission, enter “RMIN 2500: *Company Name*, underwriting data”. Each group is allowed to request up to five more factors. Please only consider factors that have objective answers and are easily measurable. Be clear in your request as to what information you are seeking. Only data that have met the above criteria will be collected.
- Your first progress report of your project is due by **11:59pm of October 21**. By this time you should have finished your product design and premium calculation and started working on the brochure, policy and the written strategy proposal. You should attach the completed pricing spreadsheet and report your basic policy structure (i.e. deductible, policy limit, risk categories, loading, etc.) in your first progress report. The report should mention the contribution by each group member thus far as well as each individual’s responsibility for the rest of the project. In the subject line of your e-mail submission, enter “RMIN 2500: *Company Name*: Premium Calculation”.
- A second progress report is due by **11:59pm of November 5**. In the subject line of your e-mail submission, enter “RMIN 2500: *Company Name*: Draft”. By this time, you should have been about halfway through the strategy proposal, sample policy, and brochure. I expect to see a draft of your project that includes an outline of the actual paper with headings of different sections, and paragraphs under each section, etc.
- The completed project is due on **December 2, beginning of class**. You are required to submit the completed project in electronic format AND in hard copy. In your e-mail submission enter “RMIN 2500: *Company Name*: completed project” in the subject line.
- As an individual, everyone is required to evaluate the contribution of each group member in your group. Assign the percentage of contribution toward the finished project by each group member and submit the evaluation form before **11:59pm of December 2** (the peer evaluation form is available on Canvas). You can either bring a hard copy of the completed form to class or submit it to me via e-mail. Adjustments may be made to an individual's grade based, in part, on this evaluation.

All e-mail sent to me should also be copied to everyone in the group. I will respond to your progress reports with comments and suggestions. **Failure to meet any of the above deadlines or requirements will result in a reduced grade.**
