Office Phone: 940-369-7248
Office Hours: By appointment (Zoom) or Wednesday from 5-7pm

Course Overview and Objectives:

This course covers the subject of nonprofit financial management from a practical perspective. It is designed to provide current and prospective nonprofit leaders and other interested students with an understanding of the concepts, issues and information in financial management and accounting for nonprofit organizations. The emphasis will be on the skills necessary to use financial information. Students will be introduced to a full range of financial management topics, including budgeting, financial statement and reporting, financial condition analysis, cash management and liquidity, as well as internal control and accountability.

You may need to understand that a single course will not make you an expert in accounting or financial management in nonprofits. However, mastery of the course material can be advantageous to anyone who is aiming for a position in a not-for-profit organization, a financial analyst, or any other positions calling for familiarity with accounting and finance in the public sector. In addition, this course assumes that students know how to use basic Microsoft words and excel.

Specifically, by the end of the semester you should be able to:

- Use financial vocabulary for communication and develop the ability to ask the right questions and interpret financial results;
- Read a wide variety of financial reports comfortably that are generated in the nonprofit organizations;
- Get and use financial information to enhance the nonprofit organization mission, and make sound decisions and effective management within the nonprofit organizations;
- Have a better understanding of the entire financial management and budgeting process;
- Conduct a financial condition analysis using a variety of ratios.
Textbooks and Other Readings

(2) **Assigned PhD students’ journal articles and readings** will be posted on UNT Canvas. It is the student’s responsibility to locate assigned articles and read all materials prior to the class.

Course Structure, Requirements and Grading:

This course has three primary components: pre-class preparation (reading and assignment), lectures, and research meetings.

There are four requirements for the course:

1) **Teaching Presentation (weight of 20%):** Students need to complete one in-class lecture (10%) and one in-class exercise teaching prep (10%). Please discuss with the instructor to plan ahead (Week 6 and Week 12).

2) **NGOs Journal article entry (weight of 25%):** There are 5 journal reading entry. Each entry accounts for 5%. For each journal entry, students need to complete the weekly journal article readings and summarize and discuss these required journal articles in the form of a short essay (at least two-page, single space). Please submit journal article entry essay to Canvas by 9:00pm of the due day.

   - Journal entry #1 due 08/30
   - Journal entry #2 due 09/13
   - Journal entry #3 due 10/04
   - Journal entry #4 due 10/25
   - Journal entry #5 due 11/08

3) **Research assessments I & II (weight of 50%):** PhD students should prepare two assessments for their extra readings for nonprofit financial management and complete a research presentation. Assessment I accounts for 15% (due by 9:00pm 10/13), and assessment II accounts for 30% (due by 9:00pm 12/08). Final research presentation (due by 9pm 11/29) will account for 5%. Quality is important for both research assessment papers. Please submit the essays and slides to Canvas.

   Assessment I (15%) is a 4-5 page review of the literature that discusses (a) a research topic and a question; (b) one nonprofit finance related theory in the readings, (c) for this topic, identify five research articles from any referred journal or anthology that *empirically test the theory*, (d) integrate and discuss the key questions or hypotheses, research design, and findings of each article in the paper.

   Assessment II (30%) is a 12-15 page complete review of the literature that discusses (a) clear research questions and objectives (b) with one or two nonprofit finance theory for the research, (c) for research purpose, identify eight or more research articles from any referred
journal or anthology that *empirically test the theory or relate to the research aim*, and (d) integrate the key questions or hypotheses (if any) and findings of each article and your critiques; as well as (e) a brief discussion of research design to answer the question (1-2 pages).

Reference should be put on a separate page for assessment I and assessment II.

Research assessment essays format requirements:

- 12 points font Times Roman
- 1-inch margin, double spaced
- MS word format submitted to the Canvas
- APA reference style

The instructor will need to run the paper through Turn It In ([http://www.turnitin.com/](http://www.turnitin.com/)) to check for originality.

Research presentation (5%) should be 15 minutes, and submit the slides to Canvas. Students may assume that you will present this research on a conference.

4) Research Meetings (5%): The instructor will meet with PhD students individually and discuss their research plans, progress, issues and assessment.

Your final grades will be based on the following formula:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Research assessment</td>
<td>50%</td>
</tr>
<tr>
<td>NGOs journal entry (5*5%)</td>
<td>25%</td>

<td>Teaching Presentation</td>
<td>20%</td>
</tr>
<tr>
<td>Research Meetings</td>
<td>5%</td>
</tr>
<tr>
<td>TOTAL PERCENT</td>
<td>100%</td>
</tr>
</tbody>
</table>

Final grades are based on total percent received in the course, which is the same as a weighted average if all assignments were grades on a scale of 0 - 100. Please note that I do not give letter grades on individual assignments or exams. I give a numerical score for each course element during the semester and assign letter grades based on a weighted average of the numerical scores. I also reserve the right to base final grades on a “curve” rather than use the standard scale below.

<table>
<thead>
<tr>
<th>Weighted numerical score of</th>
<th>Letter grade in the course</th>

Course Expectations

Class participation
Most of the students are active learners and learn best when they can actively engage and discuss the material. The more you participate, the more engaging and interesting the class will be. Your opinions and experiences matter so please share with the class. Students who pose questions and participate in the discussion sharpen their critical thinking and analytical skills. Students benefit from hearing the discussion and questions of other students. As a result, class discussion suffers in your absence. Of course, personal and family circumstances can require class absence. Students should contact the professor about such absences before the class (email is preferred).

Class Materials for Online Learning
Remote instruction may be necessary if community health conditions change or you need to self-isolate or quarantine due to COVID-19. To fully participate in this class and access to any remote learning materials, students will need internet access and will need to be familiar with the Canvas system. If there are any remote learning components, these materials will be posted on Canvas.
Information on how to be successful in an online learning environment can be found at https://online.unt.edu/learn. It is also student’s responsible to frequently check announcements on Canvas or messages from the instructor regarding to online learning dates, lectures, and other learning related information.

**Attendance Recommendation**
Students are expected to attend classes regularly and to abide by the attendance policy established for the class. If you are absent from the class or will miss a class, please communicate with the instructor before the class or as soon as possible.

If you are experiencing any symptoms of COVID-19 (https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html) please seek medical attention from the Student Health and Wellness Center (940-565-2333 or askSHWC@unt.edu) or your health care provider PRIOR to coming to campus. UNT also requires you to contact the UNT COVID Hotline at COVID@unt.edu for guidance on actions to take due to symptoms, pending or positive test results, or potential exposure.

**Face Coverings**
UNT encourages everyone to wear a face covering when indoors, regardless of vaccination status, to protect yourself and others from COVID infection, as recommended by current CDC guidelines. Face covering guidelines could change based on community health conditions.

**Incompletes, Late Homework, and Extra Work**
In most cases, I do not allow students to do extra work (i.e. an additional paper) to improve their grade in the course. This is not fair to other students who are not given the same opportunity. Late homework will be penalized unless the student has a legitimate excuse or crisis causing the delay in completing work (i.e., illness, family death). Also, I will only grant incompletes or extension to students who have legitimate excuses or crises and who make requests prior to the end of the course.

You will lose 5% of your total score if you submit within 48 hours after the deadline. You will lose 10% of your total score if you submit beyond 48 hours after the deadline. Your assignment will not be accepted beyond 7 days of the deadline with no legitimate reasons or no communications with the instructor.

**Acceptable Student Behavior:**
Student behavior that interferes with an instructor’s ability to conduct a class or other students' opportunity to learn is unacceptable and disruptive and will not be tolerated in any instructional forum at UNT. Open communication between the instructor and the students are strongly encouraged in the class. Students engaging in unacceptable behavior will be directed to leave the classroom and the instructor may refer the student to the Dean of Students to consider whether the student's conduct violated the Code of Student Conduct. The university's expectations for student conduct apply to all instructional forums, including university and electronic classroom, labs, discussion groups, field trips, etc. The Code of Student Conduct can be found at www.deanofstudents.unt.edu
Canvas
Canvas is a primary source of teaching and reading materials, and means of communication between you and the instructor for this course. The URL for our Canvas log in page is: https://unt.instructure.com/. You will find the course syllabus, additional required readings, assignments, and lecture videos for the online components on the Canvas site. You will submit your exercises, project assignment, and exams to the Canvas.

More importantly, students are expected to check Canvas and their UNT emails frequently for course announcements and materials. Plus, all new students should get a UNT computer account the first week of the class. If you need support or have any related questions, you can find information posted online here https://clear.unt.edu/services/lms-support.

Original Work and Plagiarism
Unless explicitly assigned to work in groups, all students are expected to work independently. The project, exams, and exercises should be the student’s own work. Working together where it is clearly indicated is entirely appropriate, but if you are preparing a written product that will be submitted for evaluation, that product is expected to be the result of your work alone. Where questionable situations arise, always ask the instructor for clarification. Also, students must cite their sources where relevant, and plagiarism will be not tolerated and will be penalized severely at UNT. Please read MPA handbook for more information. You could also find information from the following website that defines academic dishonesty and available penalties: https://policy.unt.edu/sites/default/files/untpolicy/pdf/7-Student_Affairs-Academic_Integrity.pdf

The Learning Environment
The instructor is strongly committed to maintaining a positive learning environment based on open communication, mutual respect, and non-discrimination. Please respect your instructor and your fellow students. Our University does not discriminate on the basis of race, gender, age, disability, veteran status, religion, sexual orientation, color, or national origin. Any suggestions as to how to further such an environment will be appreciated and given serious consideration.

Diversity and Inclusion Statement
The Department of Public Administration believes in the fundamental principles of life, liberty, equality, equity, and in doing good to all people as we serve our students and the public interest.

- We believe in the importance of diversity and inclusion
- We believe in fairness and equity for all faculty and students in and out of class
- We believe in mutual respect and civility for all students and faculty
- We believe that faculty and students have a right to a redress of grievances
- We believe that students and faculty should be actively engaged in good works

Policy on Cell Phone and Laptop in the Classroom
The classroom setting at an institution of higher learning is intended to serve as a venue that permits the transfer of knowledge and facilitates the sharing of ideas. As such, it is imperative that any distractions from these stated objectives be avoided and kept to a minimum. Potential disruptions include modern electronic devices such as cell phones.

Students are allowed to take notes and use excel to conduct analysis on personal laptop computers and computers in the classroom to enhance the learning process, but they should not
activate their internet browsers during class or use computers for non-academic purposes (as this diverts attention from the lecture/discussion for both the student using it and others nearby). Students should also avoid using cell phones to search the Internet or text while class is in session. Please silence your phones.

Exceptions to this policy will be at the discretion of the faculty only and may occur if searching the Internet is necessary to find additional information or facts related to the subject being covered on that particular day.

Participation by Students with Disabilities
The Department of Public Administration, in cooperation with the Office of Disability Access (ODA), complies with the Americans with Disabilities Act in making reasonable accommodations for qualified students with disabilities.

Students with disabilities should log into a new database called Accessible Information Management (or AIM). AIM is an online system where students can log in and access ODA services using their UNT log in credentials. It is the student’s responsibility to request your Letters of Accommodation ONLINE, and then ODA will mail your LOAs to your instructor. Go to https://augusta.accessiblelearning.com/UNT/ to log into AIM.

Sexual Discrimination, Harassment, and Assault
UNT is committed to providing an environment free of all forms of discrimination and sexual harassment, including sexual assault, domestic violence, dating violence, and stalking. If you (or someone you know) has experienced or experiences any of these acts of aggression, please know that you are not alone. The federal Title IX law makes it clear that violence and harassment based on sex and gender are Civil Rights offenses. UNT has staff members trained to support you in navigating campus life, accessing health and counseling services, providing academic and housing accommodations, helping with legal protective orders, and more.

UNT’s Dean of Students’ website offers a range of on-campus and off-campus resources to help support survivors, depending on their unique needs: http://deanofstudents.unt.edu/resources_0. Renee LeClaire McNamara is UNT’s Student Advocate and she can be reached through e-mail at SurvivorAdvocate@unt.edu or by calling the Dean of Students’ office at 940-565-2648. You are not alone. We are here to help.

Student Perceptions of Teaching (SPOT)
SPOT is a requirement for all organized classes at UNT. This short survey will be made available to you at the end of the semester, providing you a chance to comment on how this class is taught. Once the SPOT becomes available via your my.unt.edu portal, please complete the survey as it will help in every effort to improve the instructor’s teaching skills.
