HOT SUMMER

SUMMER 2012
COLLECTION

PINK CADILLAC

What better season than summer to cruise around town, perfectly polished fingertips drumming the steering wheel? Make sure they're up to the task with this rosy pink hue that's simultaneously ultrafeminine and a smidge edgy. Don't forget to keep your eyes on the road!

SKINNY DIPPING

Going for a moonlit swim? Make sure you bathe nails in this true-blue aquamarine, sure to stand out in even the darkest of nights. With enough magnetism to make anyone strip past their skivvies, this bold bright pays homage to the carefree spirit of summertime fun.

BUBBLEPOP

Pop goes the weasel—and pop go your nails with a playful orange-tinged coral. Forget the nursery rhymes; just hanging on the porch and flashing this flirty hue with subtle sophistication will have all the boys in the neighborhood paying close attention!

DOUBLE DUTCH

Double your pleasure, double your fun by enrobing nails in a dreamy lavender. Seamlessly transitioning from fun in the sun to romantic sunsets, this pastel hue is a soft summer shade that perfectly aligns with the neutrals found everywhere in this summer's fashions.

GOOD TO BE GREEN

Maybe it ain't easy being green, but it sure is fun! Turn expectations—and onlookers—on their heads during the sunniest season with a subdued yet audacious apple green polish. Guaranteed to stand out from the pack of neutrals and brights, this shade combines the best of both worlds to make a positively delicious statement.

SO HOT IN SUNGLASSES

The future's so bright, you gotta wear shades, and this intense orange might require the same precautions. With a punchy neon personality and an unmistakable pop of saturated color, nails sheathed in this shade will definitely make 'em sweat!
