new presentation software called Prezi Next on April 25, 2017. The old version is now called Prezi Classic and most of our free templates have been designed for the Classic version. If your Prezi account was created before April 25, you will automatically have access to both versions of Prezi. You can easily use all our templates. Currently there is no date set in the future when and even if, Prezi Classic will be discarded. He was obviously loved by more than 80 million people, so you can't just fall. Read our Article on Prezi Next here. If your Prezi account was created after April 25, then, by default, you will only have access to Prezi Next, but there is an easy solution, you can simply activate your Classic Prezi account and continue to use all of our classic templates, free and premium. Read the tutorial on activating Prezi Classic. Note: Prezi Classic templates can only be opened in Prezi Classic and Next templates only in Prezi Next. Currently it is not possible to migrate content from one platform to the other. How can Prezibase templates help you? Each presentation is unique and requires a specific concept. Our large collections of Prezi templates help you find a perfect theme for your presentation theme so you can better visualize your ideas. Using a strong visual concept makes your content more memorable and easily substable. Don't take our word for it: You had the right background for my presentation. The background created the right atmosphere and was perfect for the topic I was discussing. I loved that it was easy to use and work problems with the information I entered. Chris, Pennsylvania 5/5 ★ ★ ★ ★ I'm delighted with your Prezibase templates! My audience was also very positive. I used the mind of the brain with the turning gears to 'preach' over the disorder that bombards people today and requires a specific approach to communicating with people. The template fortified the message of my presentation. Jan Jongbloed, Netherlands 5/5 ★ ★ ★ ★ Prezi is a wonderful replacement for Powerpoint slides when you should have a visual to accompany your talk/training/briefing. With very little training (some webinars), I was able to complete a template-based presentation very easily. The templates provide a starting point and helped me solve the mechanics of how Prezi works. Eliza, Atlanta 5/5 ★ ★ ★ ★ ★
