

BOX OF CRAYONS GIVES PEOPLE THE TOOLS THEY NEED SO THEY CAN FOCUS ON THE WORK THAT MATTERS.

WE GIVE TIME-CRUNCHED MANAGERS PRACTICAL COACHING TOOLS SO THEY CAN COACH IN 10 MINUTES OR LESS

You already know that if your managers and leaders were coaching more often, the people they lead would have more focus, more impact and more resilience. But it can be frustrating to send people on training programs, to find nothing changes when they return. What if your managers had the insight and skills to actually make coaching part of their everyday work? Our counterintuitive approach to coach training means coaching is now something that every time-crunched manager can do.

COACHING FOR GREAT WORK

COACHING HABIT

GREAT WORK FEEDBACK

"Based on my professional experience in the OD arena, I know programs have to be useful and practical. And if I think about other learning workshops I've attended that seemed good at the time ... but now I couldn't even tell you what they were about. I expect to see results immediately ... and with this program I did. When people start using the language from the workshop and they demonstrate an understanding, I know that the learning resonated and has stuck. I could see that there were many "a-ha!" moments in the session which were meaningful to the participants and we've seen an immediate ability to use the tools from the session."

Marie Crea, Horizon Blue Cross Blue Shield

WE HELP PEOPLE AND ORGANIZATIONS DO LESS GOOD WORK AND MORE GREAT WORK, SO THEY CAN WORK LESS HARD AND HAVE MORE IMPACT

All organizations struggle to find the best balance between Good Work - the everyday "job description work - and Great Work - the work that makes a difference, creates an impact and has meaning. Hard as you try, Good Work keeps pulling people away from the Great Work. But can you imagine the difference if everyone on your team or in your organization was doing 10% more Great Work? Our live and online programs give all employees the focus, courage and resilience - and practical tools - to find more meaning and have more impact in the work they do.

GREAT WORK KICKSTART

"You always hope in a session like this you can instill energy in people so they will get more inspired and do more great work ... but to actually see that transformation take place, that was really quite remarkable. I've got to tell you that was worth every penny. Everybody seemed to walk out of there a little bit lighter and a little bit taller and a little bit more enlightened."

Kiara Sol, AstraZeneca

ABOUT BOX OF CRAYONS

Box of Crayons is a training company with a good deal of skepticism about training. We know training typically doesn't work in changing people's behaviour. And we're determined to buck the trend.

Our background is in large-scale organizational change. We know that it's a complex process to help an organization grow and evolve. Our programs are designed to play a small role in a bigger game: helping your organization and the people in it do more Great Work and have more impact.
