

Around & About

ROCK/OUTDOOR—Power Trios by Patrick Grant Group will perform a free, outdoor concert at Waterside Plaza at June 21 at 7:30 p.m. as part of Make Music New York 2011. A power trio is a rock and roll band format popularized in the 1960s, though this group will be playing contemporary music. The traditional power trio has a lineup of guitar, bass and drums, leaving out the rhythm guitar or keyboard that are used in other rock music to fill out the sound with chords. This 90-minute performance is the second presentation that Patrick Grant has created for Waterside Plaza's participation in Make Music New York.

Peppergreen Media & Waterside Plaza present
