CLASSICAL MUSIC EAST SIDE, WEST SIDE *June 21*

The boundaries between classical, world music, and pop will melt away during “Make Music New York,” a citywide, daylong festival of more than six hundred free concerts that will be held simultaneously with similar events in most of the major cities of the world. The acts are too numerous to list, but the festival’s Web site includes an elaborate interactive map. (For more information, see www.makemusicny.org.)
