Supernatural Living is living a life that is beyond average with often interventions of God either directly by miracles or indirectly by divinely orchestrated human activity.

Examples of Supernatural living

- *Fires of Shadrach, Meshack, and Abednego*
- *Fishing Business and Finances of Peter*

To apply any principle in scripture three things are necessary:

1. _____ – and understanding of the principle, that creates spiritual conviction which gives birth to courage and confidence for my future.
2. _____ – Example of someone who has applied and lived the principle both in scripture and in contemporary society.
3. _____ – A level of faith to apply and live the principle until you see it come to pass in your life.
