

GIFTS OF HOPE 2022

AUSTIN REGION JUSTICE FOR OUR NEIGHBORS

JFON is a network of church-based immigration legal clinics serving more than 3,000 low-income clients each year. The organization addresses a wide range of immigration causes, including asylum cases for those seeking protection from persecution or even death, survivors of human trafficking who apply for protection, those in detention, abused women and more. JFON helps immigrant communities be better informed and faith communities better prepared to respond.
