

Complete this concept review handout and keep it as a record of what you have learned.

DEFINITIONS

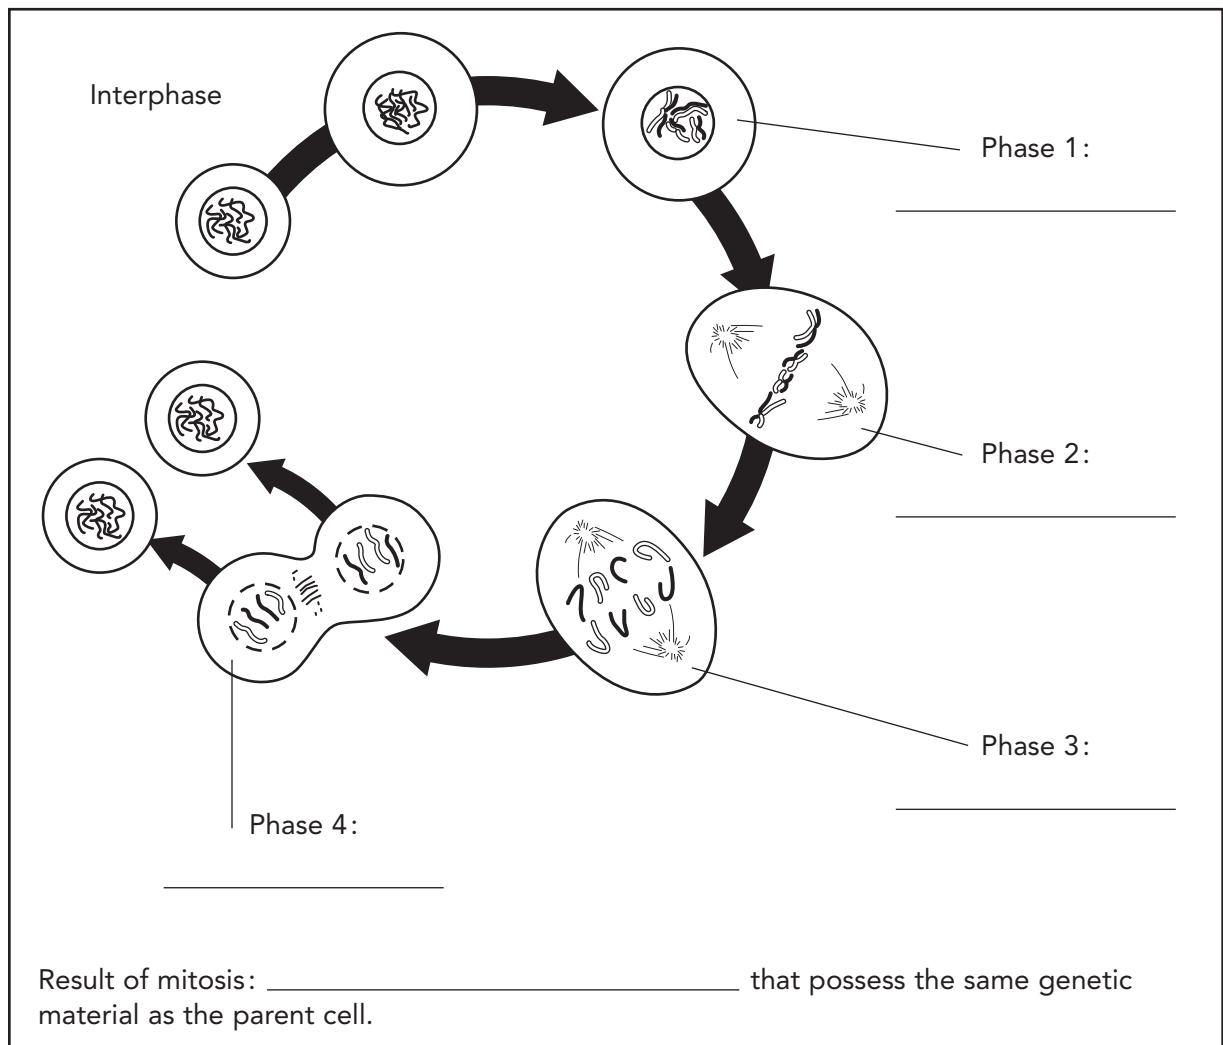

- Cell division is _____

- A chromosome is a rod-like structure that contains _____

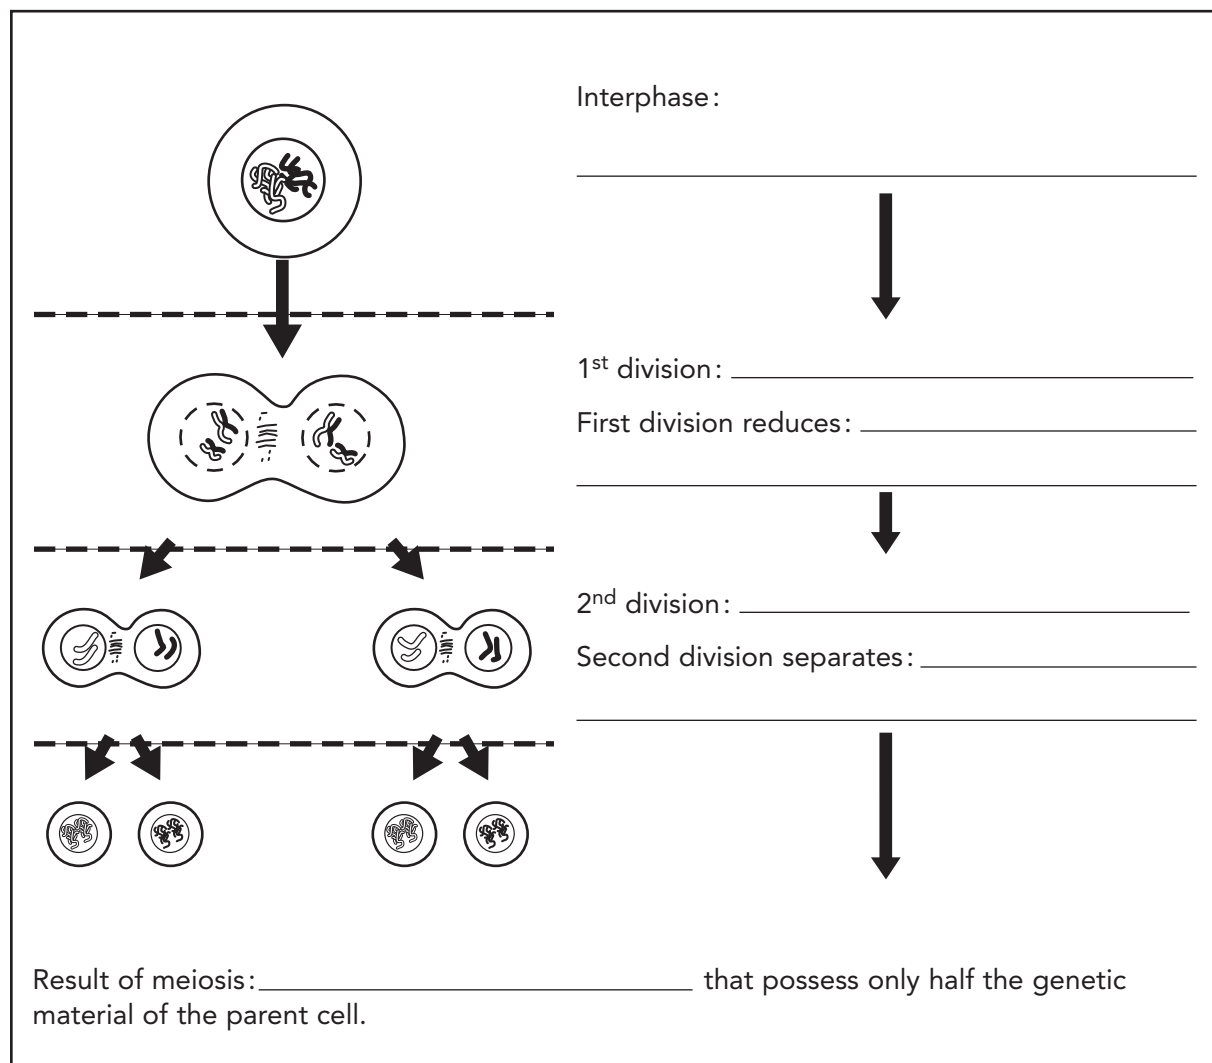

- Mitosis is _____

- Meiosis is _____

INTERPHASE AND PHASES OF MITOSIS

INTERPHASE AND PHASES OF MEIOSIS

CHARACTERISTICS OF DAUGHTER CELLS FOR EACH TYPE OF CELL DIVISION

	Mitosis	Meiosis
Number of chromosomes		
Haploid (one chromosome from each pair) or diploid (one pair from each chromosome)		
Number of daughter cells produced
