

Magnetism and electromagnetism

EST

PAGES 163–171

Complete this concept
review handout and
keep it as a record of
what you have learned.

Definitions

- A magnet is _____

- Magnetism describes _____

- The north pole of a magnet is _____

- A magnetic field is _____

- Electromagnetism describes _____

- A solenoid is _____

EST

Magnetic forces of attraction and repulsion

Opposite magnetic poles _____
Like magnetic poles _____

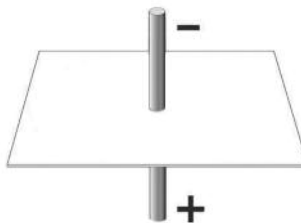

Magnetic fields

EST

Magnetic field
of a bar magnet

N S

Magnetic field
of a live wire

Magnetic field
of a solenoid
