

ANYONE WHO SAYS ROCK IS DEAD - WILL BE!!!

ドミナー DOMINATOR

THE MOVIE

80 MINUTE FEATURE FOR AN ADULT AUDIENCE

2020 AD: all-girl rock trio CrowCut discover the fabled 'Lost Chord' during a gig, and accidentally summon the Dead God of Rock 'n' Roll - Dominator - to earth. Chaos and mayhem ensue; Dominator is on the run from his satanic master, Lord Desecrator, with the stolen Key To Hell, and is followed to Earth by fellow demons Extricator, Decimator and Lady Violator, who've been sent to bring him back.

Cities explode and crowds cheer as Dominator and co. thrash their way to stardom, fighting off a myriad of bizarre enemies along the way. But the real battle begins when sinister government forces ally themselves with Lord Desecrator to bring about the Apocalypse itself and Dominator finds himself trying to aid humanity in its struggle against the encroaching Legions of Desecrator... and all to the beat of one of the most extreme soundtracks ever heard on an animated movie, including tracks by Cradle of Filth, Killing Mode, Sikth and Synthetic.

DOMINATOR is the UK's very first full-length CGI movie, from a team of British and Japanese creators and animators. Vocal stars include Dani Filth of top death metal band Cradle Of Filth, and Doug Bradley (Hellraiser).
