

# HAUNTED HOGMANAY

Two unlikely friends set out on New Year's Eve for an investigation into the supernatural activity of the streets buried underneath Edinburgh's Old Town. Trouble ensues when they disturb the ghostly inhabitant in this half-hour special stop-frame animated comedy. Starring Alex Norton (Pirates of the Caribbean 2: Dead Man's Chest, Taggart) and Peter Capaldi (The Thick Of It, Dangerous Liaisons).

Commissioned and fully funded by BBC Scotland for their most prestigious slot, Haunted Hogmanay is the first half-hour animated special in the Thurston and Jeff franchise. With work currently underway on the sequel and further half-hour animations and a feature-length episode in development, this series has excellent brand potential.
