

Health Smiles Program Coming to Mooreville Schools

The Healthy Smiles program is returning to Mooreville Schools in January to provide essential preventive dental care to students without them even leaving the building. Care provided includes check-ups, cleanings with fluoride, preventive sealants, and x-rays. Healthy Smiles dentists provide brushing instructions and a dental health report card will be sent home after the visit.

Medicaid and most insurance plans are accepted or students may be eligible for our grant program. Families needing a registration form or with questions, should contact Health Services at their child's school. Visit dates are as follows:

- Newby Jan. 11
- North Madison Jan. 14 - 15
- PHMS Jan. 16
- Northwood Jan. 17
- Neil Armstrong Jan. 22 - 23
- Waverly January 18
