Mooreville Schools Families –

As you may have seen, we have been in the process of retrofitting all Mooreville Schools entryways with locked doors and check-in systems to make our schools as safe as possible.

We would like to introduce you to another new system being installed in our schools to help protect our children. The V-soft system by Raptor Technologies will help us track visitors, contractors and volunteers at our schools, thus providing a more secure environment for all students and staff.

When visitors, contractors or volunteers check-in, or when parents come to pick up students, they will be asked to present a valid state-issued photo ID (such as a Driver's License or military ID). This will be scanned into the system and it will provide alerts on people who may pose a risk to the safety of the campus. The system will provide automatic badges with names and date stamps for the visit. All visitors will be asked to present a valid photo ID when entering our schools beginning May 1, 2013.

As always, we ask that parents be sure to update their child's school profile with any changes as to who may pick up their child, custody changes, and/or contacts whenever cell phone numbers, emails, caregivers or other information changes. Your child's school office can assist you with this.

We appreciate your help and support in helping keep our schools as safe as possible. If you have questions regarding the system, please contact your child's school office. Thank you in advance for your cooperation with this matter.
