Dear Parents, Students and Supporters,

Greetings from the newly reestablished Mooresville Agriculture Science Department! I would like to take this opportunity to thank those who have been instrumental in bringing the agriculture department back to Mooresville High School. I am excited to be part of this unique opportunity, along with you all, to provide a solid foundation for the restart of this program.

I want to take this opportunity to introduce myself and provide a few goals for the Mooresville Agriculture program. My name is Mrs. Shelby Wolford and I will be in my 3<sup>rd</sup> year as an agriculture educator. I am an Alumnus of Purdue University with dual degrees in Interdisciplinary Agriculture and Agriculture Education. Prior to transitioning to Mooresville High School, I worked to improve the Eminence Jr. Sr. High School Agriculture Program and FFA. My additional support system is based with my family, my husband Cory and our son Landrin.

For this year, I aim to accomplish the following goals and projects.

- Establish an Agriculture Advisory Board and FFA Alumni Chapter
- Attend the National FFA Convention with the FFA Officer Team
- Receive recognition with the Indiana FFA as a Top Chapter in Indiana
- Reestablish a successful fruit and plant sale to provide scholarship for future FFA members

To learn more about our program, CASE (Curriculum for Agriculture Science Education), and FFA, I invite each of you to join us in an Agriculture Department open house on Thursday July 30<sup>th</sup> from 4:00 to 7:00PM. The open house will take place in the Agriculture Building that is located behind Mooresville High School and Paul Hadley Middle School.

I look forward to meeting each of you,

A handwritten signature in black ink that reads 'Shelby Wolford'.

Mrs. Shelby Wolford

FFA Mission

“FFA makes a positive difference in the lives of students by developing their potential for premier leadership, personal growth, and career success through agriculture education.”
