PLTW Showcase at MHS

President of PLTW Dr. Vince Bertram

On April 11, MHS put on a Project Lead the Way showcase. PLTW is a STEM program for pre-engineering, biomedical sciences, and computer science.

Throughout the day, students led government and education officials from other schools on classroom tours to see the different PLTW classes at work. The students were able to meet and talk with Dr. Jennifer McCormick, Superintendent of Public Instruction, and Dr. Vince Bertram, President of PLTW and State Board member.

In addition to the tours, there was a student panel featuring students from MHS, PHMS, and Northwood Elementary School.
