## Superintendent's Message

# A Great Year Ahead

**Superintendent Randy Taylor**

We're excited for all that the new school year brings and thankful for all of the caring families who are joining us in these events to show students the importance of a strong school and family relationship. Every parent at Back to School night, every first day of school photo at the bus stop, and every family watching their high school student drive to school for the first time is a meaningful moment and a chance to tell our students we believe in them and we want them to have the best year possible.

Our enrollment trend of hundreds of students coming to Mooresville from outside our district boundaries continues, and we know that is due in large part to our dedicated school board, caring staff, strong curriculum, and a safe and nurturing environment. Being entrusted to provide these things to our children is a duty we do not take lightly, and one which we work to strengthen every day.

For many of our families, this will be the first year their child will be part of the Project Lead the Way (PLTW) curriculum program. We're excited to bring this award-winning program, which engages students in science, technology, engineering and math concepts in a fun, team-based environment, to all seven Mooresville Schools this year. This curriculum gives our students hands-on learning in a collaborative environment which promotes creative thinking and problem-solving. To learn more about PLTW, be sure to [watch our new district video](#).

## Partnerships Provide Expanded Opportunities

*Continued from p. 1*

This year we have also expanded our counseling and behavioral health program with Adult and Child Services to increase services to those students who need it most as well as provide a stronger foundation for our youngest students through The Incredible Years curriculum for students from preschool to 3rd grade. The Incredible Years is a series of interlocking, evidence-based programs to address behavior issues and promote children's social, emotional, and academic competence.

Another important partnership for health and well-being is the one we have with Franciscan Health Mooresville. In the past, this partnership has brought vaccination clinics, athletic physicals, and athletic trainer resources to our students as well as a wellness clinic to our employees and their dependents. As we look toward the future, we are asking our school community for input on what services and programs will help with healthy living. [Click here to take part](#) in our community survey asking for your input on this important topic.

We also know that above all, our students, staff, and visitors need to feel safe at school. Our work in this area has been and will continue to be a priority. Our behavioral health program is a key component of safety, as it helps identify and assist those students who may have emotional needs and behaviors which should be addressed. Also this summer, we have received a safety grant which will allow us to purchase new digital radios and tower repeaters to better serve our entire district area, including all school buildings and bus routes,

## Safety Remains Top Priority

Continued from p. 2

with immediate communications to school administration and our school officers.

This grant will also allow us to increase the number of security cameras at our schools. In addition, our school district will receive

15 hand-held metal detectors as part of a new state program. School administrators and officers

will be trained in their use and procedures in the coming weeks. Another component of our safety protocols is our visitor identification and verification system, which is undergoing enhancements to align information from all of our school and law enforcement databases seamlessly. These are just some of the programs we have to help maintain the safety of our students, staff, and visitors. Other safety measures are and will remain unseen and hopefully will never need to come to light.

We could not speak about our safety programs without recognizing the strong partnerships our school district has with law enforcement and emergency responders throughout our district. Our school security officers are all off-duty local police officers and provide our district with up-to-the-second communication and information when

## Community Support Is Critical, Appreciated

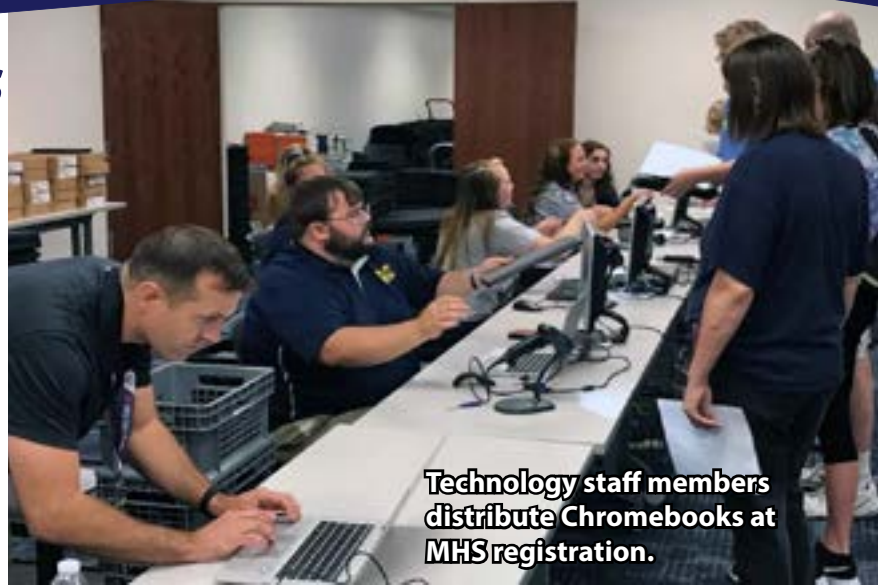

*Continued from p. 3*

issues arise in our school community. Our officers and all area departments take part in safety drills at least once each semester at each school building. Their dedication to knowing our buildings, staffs and students is tremendous. In addition, we have staff members trained as Indiana School Safety Specialists who receive training every year on the latest in school safety issues and trends and bring those lessons back to our schools. The collaboration and communication among these groups is outstanding and we cannot over-emphasize our thankfulness for these strong partnerships in our school community.

Most of all, we want to thank everyone in our community who has cared for our students. This past weekend dozens of local organizations and volunteers combined to create a Quality of Life Fair and School Supply Distribution which helped hundreds of families in need give their students a strong start to 2018-19. We cannot overstate the importance of this event, which puts smiles on the faces of our students and brought more than a few parents to tears. The kindness in Mooresville was on full display that day, and we know it will be for many more days throughout the year. We ask everyone in our community to continue that caring by looking out for our students. Please let us know if there is ever anything a student says or does which makes you concerned for their safety or the safety of others. Please monitor your children's social media and electronic devices for anything

which may be questionable or concerning. We have several links to safety and cyber-safety information available at [www.MooresvilleSchools.org/Parents](http://www.MooresvilleSchools.org/Parents) and encourage our families and community to use these resources.

Thank you again for everything that you've done to support our students and our staff. We truly appreciate our caring community.

Technology staff members distribute Chromebooks at MHS registration.
