Quick Tip System Available

Students, families and community members who have safety concerns regarding the school district have a new tool to report information to district administrators.

Mooresville's online Quick Tip system allows anyone with a concern to send information anonymously via their phone or computer about a concern. The system provides opportunities to direct message to specific schools and even send screen shots or photos of the safety issue.

As always, if there is an emergency or immediate danger, those with concerns should call 9-1-1 instead of utilizing the online system. [View the system reporting template.](#)
