Lot No. 23 Legal Plan 59600 S/A 3458

Date / Initials

To Drafting Oct. 10/80 1/15

To Drainage OCT 14/80 780

To Building OCT 15/80 92

TO THE BUILDER:

☐ Sufficient recorded information to assess drainage is unavailable. See attached "Requirements for Approval of Lot Drainage Plans" for further information.

☒ The plan below records the drainage scheme approved for this lot.

This plan should not be used for legal survey or building design purposes.

The Corporation assumes no responsibility for any errors in elevations or locations of services.

Unless noted otherwise, drainage facilities indicated in easements or rights-of-way are assumed by The Corporation to exist and to function satisfactorily.

The Builder shall confirm the existence, location, and conditions of the above drainage facilities and notify the Drainage Engineer of any deficiencies found, prior to commencing the construction for which a permit is sought.

The Builder shall construct all items labelled "By Builder" to the satisfaction of the Building and Inspections Department.

On Municipal storm sewer leads approved for construction since May, 1980, inspection chambers have been provided. Builders are required to install the riser from the chamber to the proposed ground surface. Where work is to be done on storm and sanitary connections that are close together, installation of the inspection riser shall not precede excavation of the sanitary lead. Material and workmanship shall be as specified on Corporation of Delta Drawing No. L.6.12.

Elevations and dimensions are Imperial metric ☒.
