

junior business consultant

— Hamburg

Are you eager to take part in international digital adventures and become an expert in workflows and business processes? We are on the lookout for a junior teammate in Hamburg.

Who are we?

At Nextway, we ease the work-life of millions around the world with solutions based on the flexible Next® product suite — a collection of Ready-to-Go software products that streamline business processes in any modern-day company.

To do so, we have a group of smart, passionate, respectful, and cake-loving business process consultants placed in 7 countries throughout Europe.

Our consultants help the customers design, develop, implement, and maintain solutions streamlining business-critical processes involving documents, such as:

- invoices
- contracts
- emails
- expenses
- bank statements

... and the list goes on.

What you get to do

- You'll be working closely with our international customers to finetune their business-critical processes. You'll be analyzing their current use of documents, and advising them to work with smarter, automated solutions.
- You'll translate concrete customer needs into specifications for smooth internal handover.
- You'll also be responsible for your own projects and/or be part of larger projects after a thorough onboarding

... and you'll do all of this in a highly international, professional, and fun environment.

To learn, you'll get a career plan and training by experienced colleagues.

And as a bonus, at Nextway we offer flexible working hours with occasional home office time. Or if you like skiing, why not work out of our Swiss office for a week or two?

Who are you?

- You recently got a bachelor's or master's degree in computer science, industrial engineering, or business administration. You might even have a couple of years work experience.
- You know what ERP systems, workflows, and processes are.
- You have solid communication skills, both written and verbal. The main language at the office is German, but the corporate language is English.
- You are structured and have a razor-sharp mind.
- You value good relationships and enjoy contributing to a team effort.
- You are ambitious and have the hunger for learning.
- If you also know of Business Process Modeling Notation (BPMN 2.0) and Design Thinking, this would be an advantage. But it is not a requirement.

We live by our values.

Nextway is not governed by voluminous books of rules and regulations. We believe in shared core values as the guiding principles that dictate our behavior and actions. Unified, Easy, Smart, Respectful, and Ambitious are the 5 paragraphs in our constitution. You either buy in to this, or you won't be invited at all. Period.

If you have reached this far in the job ad, you will know by now whether it's relevant to forward your application and CV. If the answer is "YES", don't hesitate to send it to the contact below.

Interested?

Mail your application and CV named "DE-008 Junior Business Consultant" to job@nextway.software. We process the applications as they come in. And we won't keep you waiting. Rest assured — we'll treat your application with complete confidentiality.

If you have questions, reach out to Raphael, your future manager — at rsc@nextway.software.

Mailroom automation
– the next way

Nextdays
– innovating the future

We make companies more efficient and people's lives at work easier. We replace processes that involve paper documents, Post-its, spreadsheets, and emails with easy-to-use software. Our Next® smart process applications boost corporate efficiency, scalability, and the personal joy of work. Since 1986, we have served our customers from all over the world, through a network of certified partners and own offices in Denmark, Finland, Germany, Norway, Sweden, Switzerland, and the UK.
