It’s what MDOT MTA stands for, and that doesn’t stop when severe weather starts. So above all else, we do what’s needed to make sure that you, our employees, facilities and equipment continue to stay safe no matter what the challenge, even if we have to curtail some or all levels of service. In that case, we’ll provide as much advance notice as possible.

We are committed to offering world-class customer service in all kinds of conditions because we recognize the impact that it has on your transit experience.

Among other things, that means conveying information to you as accurately and as quickly as possible on as many communications platforms as practical.

• Online (website and social media)
• Email and text alerts direct to your phone
• Radio
• Television
• Transit Team reports on WTTZ-FM 93.5
• Transit Information Contact Center help by phone at 410-539-5000

No matter what the weather, the MDOT MTA website at mta.maryland.gov contains the most up-to-date information, with confirmed service changes posted there first, then posted to all other information platforms.

Keeping Your Ride Safe

• Allow extra time for travel, and dress warmly in case your bus or rail vehicle is delayed because of the weather and traffic.
• Don’t run to catch your ride! While MDOT MTA regularly clears and salts rail platforms, walkways and parking areas, MDOT MTA does not “own” bus stops or the area around them. Local jurisdictions are responsible for clearing snow from the sidewalks and streets adjacent to the stops. Walk carefully to avoid hidden patches of ice.
• CityLink, LocalLink and Express BusLink routes may be altered and limited to larger streets during severe weather until smaller streets have been plowed or conditions improve.
• When conditions are wet and temperatures are freezing or below, Light RailLink and Metro SubwayLink vehicles are typically deployed to run without passengers throughout the night to keep tracks clear of snow buildup and/or to maintain vigilance against ice buildup on tree branches and overhead lines.
• Commuter Bus service that has been eliminated for the morning commute will not operate in the afternoon. MDOT MTA takes its cues from the U.S. Office of Personnel Management if received in a timely manner, to determine schedule modifications in case of early release of workers due to severe weather.
• MARC Train Service operates under the “R” schedule during periods of predicted heavy and prolonged snowfall.
• MobilityLink Service may be limited to medical emergencies in cases of severe weather. Please call 410-764-8181 to cancel or check on the status of your ride.

When you're headed out the door, you may not always have time to check the latest reports before you leave. That's why MDOT MTA makes its service reports available on all mobile phones, including those that are voice and text-only.

Email/Text
Receive both email and text message alerts for all MDOT MTA service modes. You can even customize your own alert by choosing the service type, station, routes and lines as well as service times and dates. To get started visit mta.maryland.gov/enotifications.

Online at mta.maryland.gov
You'll find the most current source of information regarding MDOT MTA service at mta.maryland.gov/service-alerts. Click on the button(s) under the Service Alerts section to access specifics regarding service delays for your particular mode(s) of transit.

Social Media
During times of severe weather, MDOT MTA makes a point of communicating with our customers even more frequently than usual on social media. Here's where to find us:

- **Twitter**: twitter.com/mtamaryland
- **Facebook**: facebook.com/mtamaryland
- **Instagram**: instagram.com/mtamaryland
- **LinkedIn**: linkedin.com/company/MTAmaryland

**WTTZ-FM 93.5**
The MDOT MTA radio station WTTZ-FM 93.5 is the most comprehensive broadcast source of transit, traffic and weather information in the Baltimore region, covering most of our local service area. The smooth jazz format and frequent information updates are also featured on MDOT MTA's rail platforms.

Information airs more frequently when the weather has a significant impact on MDOT MTA service.

**Mobile Fares**
Download CharmPass and make fare payment faster and easier. Since tickets are stored on your phone, you can activate them when needed and can even purchase multiple fares at once for family members. Riders using CharmPass can also transfer free between Local Bus, Light RailLink and Metro SubwayLink when traveling within a span of 90 minutes.

**Track Your Bus**
The Transit app is another handy tool worth downloading onto your smartphone. It uses GPS technology to let you know when your bus will arrive at your stop and if there are weather related delays. You can also plan your transit trip, get directions to the closest bus stop and much more.
