Application for the Maryland Transit Administration's Reduced Fare Program for Individuals with Disabilities

This information will be used to determine the applicant's eligibility for the Maryland Transit Administration's (MTA) Reduced Fare Program for people with disabilities. The MTA will assess all information provided and determine eligibility and duration for participation in the MTA Reduced Fare Program.

To qualify as a disabled individual, the applicant must, by reason of illness, injury, congenital malfunction, or other disability which is expected to last 90 days or longer, be unable to utilize mass transit as effectively as others. Conditions which **do not qualify** are: pregnancy, obesity, controlled epilepsy, contagious diseases which pose a danger to other passengers, and less severe mental illnesses. The applicant must fill out Section 1 and have his/her physician or healthcare professional fill out and sign Section 2 of this application.

Applications should be mailed or hand delivered to MTA Reduced Fare Certification Office, Lobby level, 6 Saint Paul Street, Baltimore, Maryland 21202 between 8:30am- 4:15pm Monday- Thursday. Individuals denied eligibility for reduced fare may contact **The Reduced Fare Office** at Phone: **410-767-3438** or Fax **410-333-4347** to discuss his or her case and provide additional information that may be relevant to the eligibility decision.

The following are descriptions of medical conditions that may lead to eligibility for the MTA Reduced Fare Program for individuals with disabilities under the standards contained in 49 C.F.R. § 609.3. Individuals with other medical conditions may qualify for eligibility if the federal standard is satisfied.

1. **Amputation:** An individual has an amputation of one or both hands, arms, feet, or legs.
2. **Neurological Conditions:** An individual has difficulty with coordination, communication, social interaction and/or perception from a brain, spinal or peripheral nerve injury or illness, has functional motor deficits, or suffers manifestations that significantly reduce mobility.
3. **Pulmonary or Cardiac Conditions:** An individual has a pulmonary or cardiac condition resulting in marked limitation or physical functioning and dyspnea during activities such as climbing steps and/or walking a short distance. If diagnosis is asthma, the healthcare professional should state whether: a) Individual has been on systemic medication for the immediate past 6 months, OR b) Individual has been required to use fast acting inhaler for the three or more episodes per week for the immediate past six months.
4. **Blind or Low Vision:** An individual is legally blind, whose visual acuity in the better eye, with correction, is 20/200 or less, or who has tunnel vision to 10 degrees or less from a point of fixation or so the widest diameter subtends an angle no greater than 20 degrees. An individual has low vision, and whose visual acuity is in the range of 20/70 to 20/200 with best correction.
5. **Deaf or Hard of Hearing:** An individual with a pure tone average greater than 70dB in both ears, regardless of use of hearing aids.
6. **Epilepsy:** An individual has had a least one tonic-clonic seizure within the past 4 months.
7. **Developmental or Learning Disabilities:** An individual has a significant learning, perceptual and/or cognitive disability. Some conditions may be excluded from eligibility such as attention deficit disorder (ADD).
8. **Mental Illness:** An individual whose mental illness includes a substantial disorder of thought, perception, orientation, or memory that impairs judgment and behavior.
9. **Chronic Progressive Debilitating Conditions:** An individual who experiences debilitating diseases, autoimmune deficiencies, or progressive and uncontrollable malignancies, any of which are characterized by fatigue, weakness, pain and/or changes in mental status that impair mobility.
10. **Non-Ambulatory:** An individual is unable to walk and requires the use of a wheelchair or other mobility device.
11. **Semi-Ambulatory:** An individual has a chronic condition, which substantially limits the ability to walk, or is unable to walk without the use of a caliper leg brace, walker or crutches.
12. **Drug/Alcohol Addiction:** An individual who is actively enrolled and participating in a certified and/or accredited substance abuse treatment program.
