This Authority Cash Magnet system is designed to take you to the next level. It's advanced and designed to help you leverage your Authority Site so that it becomes an *Automatic Sales Machine* for you.

You're putting the effort in to make your Authority Site as successful as possible, and if you're following our system in the way we recommend, you're going to have a load of customer data and highly-targeted customers...so **why not make it as profitable as possible?**

That's *exactly* what the Authority Cash Magnet system is designed to do for you. We've decided to link directly to these videos, as it would take several gigabytes on your hard drive to provide a download link due to their length and size.

First, watch the Strategic Selling System:

This is going to give you step-by-step instructions for developing your overall Authority Site Sales System. You'll discover how to leverage your Authority Site and uncover many other "open resources" in your industry and niche to plan and develop a complete sales and money system for it.

This gives you a baseline and helps you prepare your strategy for developing great offers that sell on your Authority Site.

Next, we want to help you “drill down” on the offers you create for your Authority Site – particularly high-ticket (high cost, which means high profit!) offers.

There’s an opportunity to create **ultra-high profit offers** in virtually any industry and for every Authority Site, and this shows you the nuts-and-bolts of exactly how to create it.

This is the true “finishing touch” for the Authority Site Launchpad system, because it takes your Authority Site from a business that makes 3 figures per day to 4 figures per day.

We’ve had students pay thousands of dollars for this Cash Magnet training alone, but we wanted to include it for you because we know your Authority Site can sell offers that not only provide you with lump-sum cash infusions, but that last and put money in your pocket for years...

Because they can be sold over...and over...and over again. And it’s a lot easier than you probably think to develop these offers.

Again, even more importantly, when you have high-dollar offers being sold from your Authority Sites, you can demand a much higher price for them if you choose to “cash in” your business on [Flippa](#) or [EmpireFlippers](#). Take a look.
