# Profitable App Ideas

This module contains a reference of numerous potential app markets and ideas that you can use as a starting point for building your own business.

Of course, this list is far from being an end-all, be-all of app ideas. The best ideas you will get will likely come from your own research, as discussed in the first and second modules.

With that in mind, here are potential app ideas and markets for you to consider as you build your new business:

- Emoticons
- Design
- Security
- Safety
- Photo-Taking/Image-Editing
- Battery conservation
- Reference Materials (in any niche)
- Messaging/Communication
- Organization
- Food/Recipes
- Health Tracking
- Religious/Spiritual/Inspirational
- Music Editor/Mixer
- Learning games
- Card games
- Local Coupons/Discounts
- Live-Streaming
- Fan/Celebrity/Team-Focused Apps
- Local Restaurants and Business Apps
- Reward Apps

**Note:** This list is obviously only the beginning, and if you already own a business, the quickest path to profit is to build an app to attract new potential leads.
