

One Minute Free Traffic OMFT Breakthrough

Bonus Video Transcript

Alright. Let's talk about the OMFT- One Minute Free Traffic Breakthrough. Now, it's very important that you pay close attention here. First of all, congratulations. Yet again, very, very few people have made it to this point. Very few people have what it takes, but you do. You have moved far, far beyond so many other people. Your knowledge is light years ahead of other people. You've moved at warp speed and this is what it takes to when you've done the work. Now the rules are that you do not have to, you do not have to worry about being the best, the fastest, the smartest, or even being right. The fact that you've gone through this training with us, the one minute free traffic training and you've seen the results, you can picture them. You've dreamed it. Now you are experiencing it. You got to know what your goals are for yourself and for your business, your drive, your inner fire, your reason why you're going to want to track every single day.

If you want to get rich, track your results, track the questions coming in, track your progress, okay? As long as you're moving forward. Over time you are winning. I want to point out as well that you will have some setbacks. You will answer questions with a great, great, great answer, and then another one and another one. Then you'll have some setbacks. Just keep going. This is about volume. This is about quality and value. You will not always hit the home run. You will not always hit the Grand Slam. What matters is that you just continuously stay focused on your why for the greatest impact tracked every single day. Track every single day. If you want to get rich, if you want to build that fortune, go crazy. Go extreme, but stay focused and just keep tracking what you measure will grow. What you focus on will grow because when you measure and you focus, you learn shortcuts.

You can take what you've learned already with one minute free traffic and just invest that knowledge back in the business and vest the skills back in to the business that you're building very, very rapidly. This is how you win. Work with coaches, mentors, work with John S, roads, work with Matt Rhodes. Listen, follow the proof, right? Success leaves clues, the track record of those like myself and like my brother. Listen, work with those people. Invest in yourself by investing in those products that continue to move your business forward if they don't move your business forward. If other people, other projects, other systems, other tools, don't move your system forward. Don't move your business forward. Don't move your products forward. Don't move your life or don't work with them. Work with the coaches and mentors and those people who you know who you would like, who you trust, who deliver value to you.

Like right now, like John S. Rhodes, like Matt Rhodes, proof success, track record. Stick with what works. The 1% secret, the true 1% the true 1%. They go. Go through all of the training again, if you want to be the best of the best, go through all of the training. Again, it's very short. It's very fast. Bite size chunks less than 5% even make it this far to this video. Watching this video is unbelievable. It makes you a winner instantly. Congratulations. I mean it. I cannot say congratulations enough times because less than 5% make it to where you are right now. You are like the navy seal of one minute free traffic and only 1% want it bad enough. Have the tenacity, the drive, the burning, burning desire backed by the reason why to go back through, review it all again because I dropped in some Easter eggs.

I dropped in some hints and some ideas but also some very, very specific tactics that you can use that are built in to the trainings that you've gone through already. The 1% and I believe that's you. The 1% will break through with the learning success, hope, clarity and money. I look forward to your success stories. When my brother and I were talking about this, we were giddy with excitement about the
