

One Minute Traffic Machines BONUS

Case Studies and Stories from Successful
Medium Writers and Publishers

Provided by Matt and John S. Rhodes
"The Rhodes Brothers"

Thank you for your purchase of One Minute Traffic Machines! Hopefully you've had a chance to review all of the videos that are included with your purchase and are eager to start publishing and earning with your own Traffic Machines.

Before you do that though, we want to get your mind racing. We've included these case studies because we want you to read first-hand, unsolicited experiences from people who are growing fast and absolutely **CRUSHING IT** by using the secret traffic platform that you've discovered.

We wanted to share these because it gives you the opportunity to see EXACTLY how they're doing it – and even more importantly, how they're leveraging the resources and additional income streams available to them to earn even higher payouts and **“bonus cash”** (via affiliate offers, their own products, etc.) using this amazing platform.

One of our **BIGGEST SECRETS** is that we hire other people, both that we've connected with personally, and that we've found on [Upwork.com](https://www.upwork.com) and [Freelancer](https://www.freelancer.com) to produce articles for us for pennies of what they're worth to us. *We can create an outline and spitfire ideas for an article in less than one minute!* We pay \$5 or \$10 for a quick article, post it to this platform (or even have others directly post it for us...we talk about how we do this during our [B3 Traffic Bootcamp](#))

Remember, there are few restrictions here (*unless* you are participating in the Medium program, then you can't include as many “ads” for your own content, but can still mention your websites, credentials, etc. in the byline/resource box) – the most important thing is that you provide **great content** with your posts, so that people are more likely to share it and applaud it... which gives you even **more** distribution... and makes it more likely that you get curated for more claps, extra profit, more AUTHORITY and boosts your expert status...

...which all works together to earn you even more profit. :-)

With all that in mind...here are the stories and case studies of those who are crushing it. Review their stories carefully so you can harvest ideas for profiting even more from your own One Minute Traffic Machines...

CASE STUDY #1: Tom K. *(growing fast!)*

"I make about \$250-\$300 per month on average...I made \$327.69 with one article."
