Circle Single Size:   YS   YM   YL  
                                  AS   AM   AL

We accept cash, Visa, or checks; payable to Cobra Wrestling Systems.

**CHEST:** Make sure to keep the tape measure high, just under your armpits, around the fullest part of your chest. Leave a little room by keeping a thumb on the inside of the tape. Do not pull the tape tight. Don't puff out or flex your chest. Just stand normally.

**NECK:** Wrap the tape measure around the lower part of your neck. It should be about an inch below your Adam's Apple. Leave a little room by keeping a thumb on the inside of the tape. Do not pull the tape tight. Round up to the next 1/2".

**SLEEVE:** With your arm at your side, measure from the end of the shoulder joint to your desired sleeve length (typically one inch below the wrist).

**WAIST:** Measure around your waist at about navel level. Leave a little room by keeping a thumb on the inside of the tape. Do not pull the tape tight.

**HIP:** Measure around the widest part of your hips. Leave a little room by keeping a thumb on the inside of the tape. Do not pull the tape tight.

**LENGTH:** Measure from the base of the collar until the desired length. This is usually just below where seat meets the legs.

**SHOULDER TO SHOULDER:** Measure from the point where your shoulder meets your arm, across to the other point of the shoulder, making sure the tape measure takes the curved contour high crossing the base of the neck.

**INSEAM:** You'll need a friend to measure from your crotch to where you want your pants to end, breaking at the top of the shoe in the front and just above the heel in the back (you'll need to be wearing shoes for this one). *Easier method:* Find a pair of good fitting pants and measure from crotch seam to cuff or bottom of pants.
