As an organization we will not be accepting checks so you will need to use the Presto Pay option to pay for your orders. Once you are registered and signed in, go to your DASHBOARD and select Presto Pay. Watch the Family Registration Presto Pay video for steps to set up your Presto Pay account.

Your account will take a few days to validate so you will not be able to order anything right away until you receive a Presto Pay approval code. When you receive this code, please email the code with your name to me at jskiss2@comcast.net and I will validate your account and you are ready to use your Presto Pay account and order from Shop with Script!

A few important facts to know about Shop with Script:
