

Slo-Pitch National Bat Announcement

Starting January 2023, Slo-Pitch National shall adopt the new USSSA compliance mark located on the bat. These are the only bats that will be accepted for Provincial and National Championship play.

ALL USSSA 1.20 BPF STAMPED BATS ARE APPROVED
UNTIL DECEMBER 31ST 2022.

USSSA BAT INFORMATION

VIERA, FL (October 30, 2019) — The current approved 1.20 “Thumbprint” stamp for USSSA Slowpitch Softball bats will NOW be LEGAL for USSSA play until January 1, 2023. USSSA has decided to move back the legal use date until 2023, to give players a longer useable period for currently owned and manufactured bats.

Current stamp USSSA Bats will stop being produced by manufacturers no later than January 1, 2021. The New Stamp bats will have a higher starting compression and a higher passing compression of 240. This means you can use the current USSSA stamped bats with a lower failing compression of 220 for USSSA sanctioned events for another 3+ years.
