

Maryland Aftershock is proud to announce that 2 of our 16U players have made verbal commitments to play collegiate softball.

Amaya Bowman, a sophomore at Littlestown Area Senior High School, made a verbal commitment on February 1st to Division I Mt. St. Mary's University in Emmitsburg, MD. She currently holds a 4.33 GPA and is ranked 5th in her class. Her intended major is Elementary Education. Amaya, a pitcher and middle infielder, is excited to pursue her college career at The Mount. She is hard working, motivated and a team player. When asked, what made you decide on committing to Mt. St. Mary's University, Bowman replied, "I decided on The Mount because I LOVE the school. I went there for a softball clinic when I was 9 and I loved the school and the people there. It was where I wanted to play. This was my dream since I was a kid, I decided to follow that dream." She stated that she is most looking forward to, "following my dream and having the college experience all while playing the sport I love. I'm really looking forward to playing with good people and playing under a great coach."

Caroline DiNenna, a junior at Mt. Airy Christian Family Academy, made a verbal commitment on February 13th to Division III Wilson College in Chambersburg, PA. Caroline is a scholar athlete with a 3.66 GPA. She is interested in pursuing a career in Equine Facilitated Therapeutics. Caroline is a standout at the plate and an amazing outfielder. Caroline's determined, fun loving, and tenacious attitude will no doubt allow her to do wonderful things at Wilson College both in the classroom and on the field. Caroline stated that "I decided on Wilson because it is a small school that has my specific major and is close to home. I fell in love with the school when I visited and could see myself being a part of it and enjoying it. I am most looking forward to being a part of the Phoenix team because it will give me a family away from home with people who share my love of softball. They will also challenge me to take my game to a higher level. I've gotten to meet the current team, including some who will still be there when I am there, and the coaches. They are a group of really nice and encouraging people-people I can see myself getting along with really well."
