

### **Local Rule - Penalty Area Relief**

On hole #1, the player must first put a ball in play from the teeing area. If the ball goes into the lake directly in front of the tee, the player may drop a ball on the green side of the lake no further forward than the tree on the right for two penalty strokes.

On any hole where the player must cross a ditch, the player must first put a ball in play from the teeing area. From the teeing area or the fairway, if the player puts a ball into the ditch, the player may drop a ball on the green side of the penalty area for two penalty strokes. The ball must be dropped directly across the ditch from where the previous ball was at rest on the course.
