Seed Ministry

SEED MINISTRY YARD SALE— Thank you to all who donated, worked and visited the Yard Sale! It was a huge success and a lot of fun though the ones that got soaked as we were closing up might not agree! Plans are already being made for next year so don't throw anything away.!

Gospel In A Barrel

The Barrel ministry continues to be a great ministry getting things to the children of Ghana. For only \$200 you can purchase a barrel to fill with children's toys and clothes and ship it to Ghana. Why not consider your church, youth group, small group or extended family donating a Barrel for Christmas?

Praises and Prayers Back in Ghana!

Today is October 8. We returned to Ghana on September 2. What a month it has been. God never ceases to amaze me at how He is working in Ghana. Just when you think He can't possibly do more, whom – there He is saying you haven't seen anything yet!

We arrived to find everything had been well taken care of and the ministry continues to grow. Emmanuel did a wonderful job overseeing everything with the help of all the staff.

The Area Leaders continue to challenge the Bible Club Leaders to step up and more children are hearing the Word. The Zonal Rallies were held in August and now preparing for the November Regional Rallies.

In the midst of all this God has blessed us with three mission teams (19 people in all) that have taken on the work load of anything and everything that needed to be done. Their times overlapped and Bob was with the South Fork team in Jirandogo then Gushegu. Meanwhile I stayed with Herb F. and Roger E. in Jirandogo, then Larry McF, Len M, Neal & Doris G. joined us for a week followed by a week in Tamale.

These folks did a phenomenal job. It didn't matter if they were painting, repairing, working on trucks, giving driving lessons, leading Club Leaders Training, visiting schools, preaching, teaching, or giving hugs. They did it with enthusiasm and a passion that showed their love for what they were doing. God honored that with many, many people hearing the Word and a lot of decisions made.

The only two not so great things since we have returned is that our internet has just refused to cooperate with getting on line. That is very frustrating. The second was that I came down with malaria last week but, praise God, I am fine now. Keep on Praying.

⁵Those who sow with tears will reap with songs of joy. ⁶Those who go out weeping, carrying seed to sow, will return with songs of joy, carrying sheaves with them. Psalm 126:5-6

More examples of how true these verses are ...

***Do we bring the truck through?
They carried the motorbike across!
Where's the boat?***

The Gushegu Ministry Center Training Hall is finished and the CLTA classes have begun. We are now looking at building the bunk house 4 rooms to house Pastors and Teams.

I had told the Pastors to send their Church Leaders that wanted to attend the school. We would register on a first come, first served basis. Didn't know if there would be one or a hundred to come. Some came at 3am to wait at the gate. Others camped out in Gushegu for the night. There was more than a hundred. Bob had to finally filter them by church denomination. Each denomination got to register at least one person and those churches that sent more than one person had to decide which one was going to stay.

Jirandogo CLTA has begun their 2nd and final year. We are changing part of the curriculum to 'DC for Students' which is a Disciple making lifestyle. Very excited about that. The guys have finished the first part of translating their Bible Overview curriculum. The goal is for that one to be finished and printed by the end of this school year.

A further goal is that by the end of their two years, these students will have translated all the curriculum we are using into their own languages. One hundred students learning how to disciple others.

These are definitely 'God-Sized' visions. It will take a LOT of work from them and a lot of intervention from God. Please be praying for them.

Sharing God's Word with men in a village.

Excitement and praises continue to flow as the water continues to flow from the pumps on the wells.
