

Greetings again from Tamale,
We have had serious wind damage in several areas but by God's Grace no loss of life. Peter and I went to his village at daylight this morning to check on his family and assess the damage and see how best we can help. We discovered lots of roofs removed but people were fine and were happy the storm did not have much rain in it so it did not destroy their food or other personal things. The school lost its roof but the church that we had ready for roofing this coming week is totally destroyed. I met with the congregation and tried to tell them this is only a setback not a defeat. The fact still remains that they are the church. James MacDonald said that "Faith is not a part of the Christian Life, it's the whole thing. Faith is everything." There is no Plan B.
Pray with us and for us as we help the people at Kpana pick up the pieces. Bob

Kpana Church building as it stood yesterday. There was a lot of excitement in the air about the roof being put on next week.

Kpana Church building as it is today. They have waited so long for a building and now this. Please pray for them.
