Hello to All,

Jim says I'm getting so much better I can give you my "report." But first, I want to thank all of you for your thoughts and especially your prayers during the illness that came upon me so quickly but is usually so deadly. God heard all of you and he decided to give me more time on Earth. For the answer to prayer, I am grateful to all of you.

Today I met with Dr. Emig, the Infectious Disease doctor. My CRP numbers have been good and she pulled the PICC line out. I no longer have wires, tubes, etc. I do use my walker and feeling wobbly like I do when I first get up from bed or chair, it may be attached to me for awhile longer. But...every day is better!!!

I've lost about 50# but it's no way to diet....I certainly don't recommend it! I'm hoping I can keep it off now. It'll be easier on these knees to not put it back on.

My most humble and grateful thank you again to all of you for caring so much.

Love, Carol
