

Dear TBC Family,

I, along with other USC Upstate student nurses, will travel to Ecuador in July on a study-abroad trip to provide health screenings and health education. We are financing our own travel, but are requesting any supplies to improve the daily lives of many desperate people in remote areas near Quito and Tosaqua. **Any items you are willing to donate will be greatly appreciated and utilized by people in need. A bin for donated supplies will be placed at the Welcome Center through June 26th. I graciously covet your prayers for the people of Ecuador and for our safe travel.**

Sincerely,  
**Anna Malone**  
**(Daughter of Chuck & Jeanie Malone)**
