## **NEW CONVERTS**

If the church doesn't teach and re-teach our new converts we might as well quit. One of the reasons for the basic class on Wednesday nights was to bring any new converts to a class where they would feel like they could ask questions through a basic foundational study. We studied the beginning of the church now to become a Christian, remaining faithful, and various other topics. There were a few new converts in the class and I hope it truly helped them, as well as a few visitors.

Some congregations judge success by the number in worship on a Sunday morning and are uncertain how many obeyed the gospel in a year. Which is more important to the Lord? When a baby is born into a family it receives the best attention, best clothing, safest crib, and is the center of attention for the whole family. It shouldn't be much different spiritually, yet many times the new Christians are left to themselves and become separated from the family. The urgency is upon on us all to not only lead souls to Christ, but if we don't continually feed them, nourish them, and disciple them, then our work is useless. "Teaching them to observe all things I have commanded you." (Matthew 28:20)
